THE COLLEGE CALENDAR FOR 1930-1931

1930

Sept. 9, Tuesday, 8:00 a.m.—Registration of old students begins.
Sept. 10, Wednesday, 8:10 a.m.—Opening chapel service.
Sept. 10, Wednesday, 8:30 a.m.—Entrance examinations.
Sept. 10, Wednesday, 8:30 a.m.—Photographing of all new students.
Sept. 10, Wednesday, 8:30 a.m.—Registration of old students completed; registration of Freshmen.
Sept. 11, Thursday—First meeting of classes.
Sept. 13, Saturday, 2:30 p.m.—Faculty reception.
Sept. 13, Saturday, 8:00 p.m.—Y. M. C. A. and Y. W. C. A. receptions.
Nov. 27, Thursday—Thanksgiving Day.
Dec. 12, Friday, 8:00 p.m.—Bates Prize oratorical contest.
Dec. 18, Thursday, 3:00 p.m.—Christmas holidays begin.

1931

Jan. 3, Saturday, 8:10 a.m.—Class work resumed. Friday classes recite.
Jan. 5, Monday—Saturday classes recite.
Jan. 17, Saturday—First semester examinations begin.
Jan. 24, Saturday—First semester examinations end.
Jan. 24, Saturday—First semester ends.
Jan. 27, Tuesday, 8:10 a.m.—Second semester begins.
Feb. 3, Tuesday, 8:10 a.m.—February meetings begin.
May 27, Wednesday—Second semester examinations begin.
May 30, Saturday, 3:00 p.m.—Annual exhibit of the Art department.
May 30, Saturday, 8:00 p.m.—Graduation exercises of the Music department.
May 31, Sabbath, 10:30 a.m.—Baccalaureate sermon.
May 31, Sabbath, 7:00 p.m.—Annual address to the Y.M.C.A. and Y.W.C.A.
June 1, Monday, 8:00 p.m.—Graduation exercises of the Expression department.
June 2, Tuesday, 3:00 p.m.—Annual exhibit of the Home Economics department.
June 2, Tuesday, 7:30 p.m.—Senior class play.
June 3, Wednesday—Second semester examinations end.
June 3, Wednesday, 3:30 p.m.—Senior Class-day exercises.
June 3, Wednesday, 6:30 p.m.—Annual meeting and banquet of the Alumni Association.
June 4, Thursday, 8:30 a.m.—Meeting of the Directors.
June 4, Thursday, 10:00 a.m.—Commencement.

THE DIRECTORS

CLASS OF 1930

Milton Wilbert Brown, M.A., M.S., D.D.....Cincinnati, Ohio
Newton Wadsworth Cadwell, D.D., LL.D.....Atlantic City, N. J.
James Moses Crawford, Esq.....Fountain City Station, Knoxville
Rev. John Baxter Creswell, B.A.....Bearden
William Robert Dawson, D.D., *Chairman*.....Knoxville
Calvin Alexander Duncan, D.D., LL.D.....Alamogordo, N. Mex.
John Samuel Eakin, D.D.....Knoxville
Judge Samuel O'Grady Houston, B.A., LL.B.....Knoxville
Rev. James Lewers Hyde, M.A.....Walnut, N. C.
William Leonard McEwan, D.D., LL.D.....Pittsburgh, Pa.
J. Willison Smith, Esq.....Philadelphia, Pa.
Judge Hugh McCall Tate.....Knoxville

CLASS OF 1931

John McKnitt Alexander, D.D.....Maryville
Hon. Thomas Nelson Brown, M.A., LL.D.....Maryville
Judge John Calvin Crawford, B.A., LL.B.....Maryville
Frank Healy Marston, D.D.....Cincinnati, Ohio
Thomas Judson Miles, D.D.....Vonore
Fred Lowry Proffitt, B.A., *Recorder and Treasurer*.....Maryville
Rev. John C. Ritter, B.A.....Johnson City
Lewis Hopkins Spilman, Esq.....Knoxville
J. Ross Stevenson, D.D., LL.D.....Princeton, N. J.
Roy Ewing Vale, D.D., LL.D.....Oak Park, Ill.
John Henry Webb, Esq.....Maryville
David Gourley Wylie, D.D., LL.D.....New York, N. Y.

CLASS OF 1932

Rev. Clifford Edward Barbour, Ph.D.....Knoxville
Joseph McClellan Broady, D.D.....Birmingham, Ala.
Hon. Moses Houston Gamble, M.A.....Maryville
Robert Isaacs Gamon, D.D.....Knoxville
Hon. William Alexander Lyle.....Dandridge
William Love McCormick, D.D.....Philadelphia, Pa.
James Gilbert Mason, D.D.....Metuchen, N. J.
William Edwin Minnis, B.A.....New Market
Arthur Evan Mitchell, B.A.....Knoxville
John Grant Newman, D.D., LL.D., Litt.D.....Philadelphia, Pa.
Samuel Tyndale Wilson, D.D., LL.D.....Maryville
Rev. John Morgan Wooten.....Cohutta, Ga.

COMMITTEES

Committees of the Directors:

Executive: Hon. Thomas Nelson Brown, *Chairman;* Hon. Moses Houston Gamble, *Secretary;* and William Robert Dawson, D.D., John McKnitt Alexander, D.D., and Judge John Calvin Crawford.

Professors and Teachers: William Robert Dawson, D.D., *Chairman;* Dean Jasper Converse Barnes, *Secretary;* and Hon. Thomas Nelson Brown, President Samuel Tyndale Wilson, Treasurer Fred Lowry Proffitt, and Hon. Moses Houston Gamble.

Synodical Examiner for 1930:

Rev. Albert H. Mutschler.

Committees of the Faculty:

Entrance and Advanced Standing: Miss Jones and Professors Orr and Rodgers.

Discipline: Dean Souder, President Wilson, Dean Barnes, Dean of Women Caldwell, and Professors Rodgers and Howell.

Student-Help: Miss Clemmie Henry, Dean of Women Caldwell, President Wilson, and Treasurer Proffitt.

Student Programs and the Lyceum: Professors Howell and Orr, Dean of Women Caldwell, Mrs. West, and Miss Frances Henry.

Student Publications: Professors Hunter, Davis, Hussey, and Walker.

Intercollegiate Literary Contests: Professors Hunter, Knapp, Ellis, and Queener.

Religious Activities: College Pastor Stevenson.

Social Functions: Professors Orr, Rodgers, and Honaker, and Mrs. Stevenson.

The Lamar Library: Librarian Ellis.

The Loan Library: Professor Knapp.

Athletics: Professor McMurray, Athletic Director Honaker, and Treasurer Proffitt.

The Boarding Club: Treasurer Proffitt.

Care of Buildings and Grounds: Miss Clemmie Henry.

Recommendations: Dean Barnes, Miss Clemmie Henry, and Miss Gamble.

The Curriculum and Catalog: President Wilson and Miss Jones.

Publicity: Professors Davis and Kiger, and Miss Jones.

Auditors for Student Organizations and Activities: Professor Walker and Miss Clemmie Henry.

OFFICERS AND FACULTY

SAMUEL TYNDALE WILSON, M.A., D.D., LL.D.,
President.

HEADS OF DEPARTMENTS

JASPER CONVERSE BARNES, M.A., PH.D., LL.D.,
Dean, and Professor of Psychology and Education.

GEORGE ALAN KNAPP, M.A., LITT.D.,
Professor of Mathematics.

EDMUND WAYNE DAVIS, M.A.,
Professor of Latin and Greek.

EDWIN RAY HUNTER, M.A., PH.D.,
Professor of the English Language and Literature, and Secretary of the Faculty.

HORACE EUGENE ORR, M.A., D.D.,
Professor of the English Bible and Religious Education.

JAMES HENRY McMURRAY, M.A., PH.D., L.H.D.,
Professor of Political and Social Science, and History.

GEORGE BENJAMIN HUSSEY, M.A., PH.D.,
Professor of Modern Languages.

GEORGE DEWEY HOWELL, M.S.,
Professor of Chemistry.

EDGAR ROY WALKER, B.A.,
Acting Professor of Physics.

SUSAN ALLEN GREEN, M.A.,
Professor of Biology.

ELVERA ADELGUNDE MEISELWITZ, B.S.,
Acting Professor of Home Economics.

LOMBE SCOTT HONAKER, B.A.,
Professor of Physical Training and Director of Athletics.

HUGH COWAN SOUDER, M.A.,
Dean of Men.

OTHER COLLEGE INSTRUCTORS

MORTON McCASLIN RODGERS, M.E., S.T.M., PH.D., D.D.,
Professor of the English Bible.

MRS. JANE BANCROFT SMITH ALEXANDER, M.A.,
Associate Professor of English Literature.

JESSIE SLOANE HERON, M.A.,
Associate Professor of the English Language.

JOHN HERBERT KIGER, M.A.,
Associate Professor of the English Bible.

HELEN REBECCA GAMBLE, M.A.,
Associate Professor of Psychology and Education.

MARGARET CATHERINE WILKINSON, M.A.,
Associate Professor of French.

MRS. MARY McDERMID MINTON, M.A.,
Associate Professor of Spanish.

ALMIRA CAROLINE BASSETT, M.A.,
Associate Professor of Latin.

MRS. BESSIE HENRY OLIN, M.A.,
Associate Professor of Biology.

MARY MOORE KELLER, M.A.,
Associate Professor of Psychology and Education.

GRACE ELEANOR McREYNOLDS, M.A.,
Associate Professor of the English Language.

ALICE ISABELLA CLEMENS, B.A.,
Associate Professor of the English Language.

ALMIRA ELIZABETH JEWELL, B.A.,
Associate Professor of History.

VERTON MADISON QUEENER, B.A.,
Associate Professor of History and Debating.

GERTRUDE ELIZABETH MEISELWITZ, B.S.,
Associate Professor of Home Economics.

ROBERT CAPERUS THROWER, B.A.,
Instructor in Spanish, and Assistant Director of Physical Training and Athletics.

FRED ALBERT GRIFFITTS, B.A.,
Instructor in Chemistry.

EMMA ELIZABETH GRIFFES, B.A.,
Instructor in French.

BONNIE LUCILE HUDSON, B.A.,
Instructor in Biology.

ROBERT LEWIS SMITH, B.A.,
Instructor in Spanish.

GRACE HARLOW WELLER, B.A.,
Instructor in Physical Training for Women.

STUDENT LABORATORY ASSISTANTS

CLARA LEE DALTON, *Biology.*
MARY ELIZABETH DEADERICK, *Biology.*
BARBARA BEAGLE LYLE, *Biology.*
HOMER ELDON McCANN, *Biology.*
GORDON McCONNELL MISER, *Biology.*
IRA ROBERT MORRISON, *Biology.*
CALVIN EDGAR SHEPARD, *Biology.*
MARY LOUISE STANBERRY, *Biology.*
GEORGA FERN BURK, *Chemistry.*
CORA LOUISE CARSON, *Chemistry.*
COOLEY LEDFORD COMBS, *Chemistry.*
MILDRED McCHEYNE CRAWFORD, *Chemistry.*
CAROL CELESTE CUSHMAN, *Chemistry.*
WILMA LEONE DICK, *Chemistry.*
RACHEL FROST, *Chemistry.*
WILLIAM MALCOLM HOUTS, *Chemistry.*
JACK MANUAL LEVIN, *Chemistry.*
STANLEY GAYLORD McCOOL, *Chemistry.*
VIRGINIA AMANDA PEARSON, *Chemistry.*
YERVANT SOCRATES TOPALIAN, *Chemistry.*
THOMAS WILSON WHITEHEAD, *Chemistry.*
GWENDOLYN VIOLET GREEN, *Home Economics.*
WILHELMINA GRUCHY, *Home Economics.*
DOROTHY LU KELLAR, *Home Economics.*
JEANNETTE MOORE, *Home Economics.*
RUTH HAZELTINE PEARSON, *Home Economics.*
BEN WESTLEY CHAMBERS, *Physics.*
SAMUEL WILSON GILLINGHAM, *Physics.*
STILES MAXWELL McMILLAN, *Physics.*
MARGUERITE IANTHE CALDWELL, *Psychology.*
HELEN BERNICE GLEASON, *Psychology.*

STUDENT GYMNASIUM ASSISTANTS

JOHN ARTHUR DAVIS.
ARTHUR LEWIS SHAW.
ROBERT WILLIAM WATKINS.

STUDENT SWIMMING INSTRUCTOR

JOHN PHILIP COUGHLIN.

DEPARTMENTS OF SPECIAL INSTRUCTION

LAURA BELLE HALE, B.Pd.,
Piano and Harmony, and Head of the Music Department

MARY FRANCES HENRY,
Voice.

ETHEL MAY ADKINS, B.Mus.,
Piano.

LOLA CATHERINE BATT,
Piano.

EVA MILDRED BUTCHER,
Violin.

MRS. NITA ECKLES WEST, B.A., B.O.,
Head of the Department of Expression.

MRS. JENNIE EDWARDS VEECH,
Expression.

MRS. NELLE CALDWELL MORTON, B.A.,
Expression.

NAN BIRD,
Art.

OTHER OFFICERS

WILLIAM PATTON STEVENSON, D.D., LL.D.,
College Pastor.

FRED LOWRY PROFFITT, B.A.,
Treasurer.

MARY ELLEN CALDWELL, B.A.,
Dean of Women, and Matron of Pearsons Hall.

ANNA JOSEPHINE JONES, B.A.,
Administrative Secretary.

HORACE LEE ELLIS, M.A.,
Librarian.

CLEMMIE HENRY,
Student-Help Secretary.

RUTH WEESE, B.A.,
Assistant to the Administrative Secretary.

MRS. LIDA PRYOR SNODGRASS,
Matron of Baldwin Hall.

MRS. EMMA LEE WORLEY,
Matron of Memorial Hall.

JESSIE ELEANOR McCORKLE,
ESTELLE McIVER,
Assistant Matrons of Baldwin Hall.

MRS. PEARL WELLS BUTCHER,
Assistant Matron of Pearsons Hall.

MRS. ELIZABETH HALL,
Matron of Ralph Max Lamar Memorial Hospital

EULIE ERSKINE McCURRY,
Proctor of Carnegie Hall.

RALPH IRWIN,
Proctor of the Grounds.

GEORGE ALAN KNAPP, M.A., LITT.D.,
Manager of the Loan Library.

MRS. KATHRYN ROMIG McMURRAY, B.S.,
Manager of the College-Maid Shop.

SARAH FRANCES COULTER,
Manager of the Boarding Club.

LULA GRAHAM DARBY,
Dining-room Matron.

MRS. CELIA ROUGH WRINKLE,
Assistant to the Treasurer.

MELVIN EARLY LAWSON, B.A.,
Assistant to the Manager of the College-Maid Shop.

MRS. CALLIE COX McCURRY,
Secretary to the Student-Help Committee.

ALMIRA EDITH ALEXANDER,
ELEANOR WILHELMINA KUHLMAN,
EDWARD PHILIP VOGEL,
Stenographers.

JAMES HAYDEN LASTER,
GEORGE HENRY OSBORN,
LYNN BOYD RANKIN,
WILLIAM THOMAS WHITMAN, JR.,
Assistant Librarians.

EDNA LEE BROYLES,
Postal Clerk.

RALPH WALTER CHERRY,
WILLIAM HENRY MARSTON,
JOHN BEN PECTOL,
HELEN ELIZABETH WILBAR,
Assistants in the Loan Library.

ERNEST CHALMERS BROWN,
Engineer.

GENERAL INFORMATION

HISTORY

In "A Century of Maryville College—A Story of Altruism," written by President Wilson, and published by the Directors in 1916, has been gathered a record of the first one hundred years of the institution's life. A fuller statement regarding this book will be found elsewhere in this catalog. In the following paragraphs the history of the College is recorded in brief.

Maryville College, like most of the older colleges, grew out of the zeal that the pioneers of the American church had for the education of the people. The same year (1802) in which Isaac Anderson was ordained to the ministry by the Presbytery of Union, he founded within the bounds of his Grassy Valley congregation, near Knoxville, a school which he called "Union Academy" but which was popularly known as "the Log College." He built for it a large four-roomed log house. In this, for the times, pretentious building, many men who afterwards served their country well received their education. Among this number was Governor Reynolds of Illinois. Dr. Anderson, in 1812, removed to Maryville and took charge of New Providence church, of which organization he remained pastor till his death, which took place in 1857. In Maryville he continued his academic work. The most famous pupil of this Maryville academy was Sam Houston, who afterward had so unique and picturesque a career as general, governor, president of Texas, congressman, and patriot.

Dr. Anderson, however, felt that more should be done toward providing an educated ministry for the Southwest. Encouraged by others like-minded with himself, he founded Maryville College in 1819. The institution was born of the moral and spiritual needs of the early settlers of East Tennessee—chiefly Scotch-Irish Presbyterians—and was designed principally to educate for the ministry men who should be native to the soil. The grand motive of the founder may be stated in his own words: "LET THE DIRECTORS AND MANAGERS OF THIS SACRED INSTITUTION PROPOSE THE GLORY OF GOD AND THE ADVANCEMENT OF THAT KINGDOM PURCHASED BY THE BLOOD OF HIS ONLY BEGOTTEN SON AS THEIR SOLE OBJECT." Inspired by such a motive, Dr. Anderson gathered a class of five candidates for the ministry in the fall of 1819, and in prayer and faith began what proved to be the principal work of his life. In the ensuing forty-two years the institution put one hundred and fifty men into the ministry. Its endowment, gathered by littles through all these years, was only sixteen thousand dollars.

Then came the Civil war, which suspended the work of the institution for five years, and the College came out of the general wreck with little save its good name and precious history.

After the Civil war the Synod of Tennessee, moved by the spirit of self-preservation and by a desire to promote Christian education in the Central South, resolved to revive Maryville College. The institution was reopened in 1866. New grounds and new buildings were an imperative necessity. To meet this need, sixty-five thousand dollars was secured, and the College was saved from extinction. The consequent growth was so great that the securing of an endowment also became a necessity. Professor Thomas Jefferson Lamar, the second founder of the College, took up the great task of securing this endowment, and labored with unceasing toil and self-denial until success was attained. In response to his appeal, in 1883, a few generous friends—William Thaw, William E. Dodge, Preserved Smith, Dr. Sylvester Willard, and others—contributed an endowment fund of one hundred thousand dollars. During the canvass for the fund, Professor Lamar lost his only child by death. This loss and the strain of the canvass proved so heavy a burden that his health failed, and two years later he passed away. In 1891, Daniel Fayerweather, counseled by Dr. Hitchcock, a friend of President Bartlett and Professor Lamar, bequeathed to the College the sum of one hundred thousand dollars, and also made it one of twenty equal participants in the residuary estate. The College received two hundred and twenty-four thousand dollars by the provisions of the will. This magnificent donation enabled the institution to enlarge its work and to enter upon a new era of usefulness and influence. On January 1, 1905, Mr. Ralph Voorhees, of New Jersey, made a munificent donation of one hundred thousand dollars to the general endowment fund of the College. The gift was subject to an annuity during the lifetime of Mr. and Mrs. Voorhees. The reception of this benefaction filled the hearts of Maryville's friends with confidence and gratitude.

In 1906, the rapid growth in the number of students having made necessary much further enlargement of the teaching force and of the material equipment of the institution, President Wilson entered upon a campaign for additional endowment. Mr. Andrew Carnegie offered the College twenty-five thousand dollars on condition that fifty thousand dollars additional be secured. In 1907, the General Education Board pledged fifty thousand dollars on condition that one hundred and fifty thousand dollars be secured from other sources. Mr. Carnegie then increased his pledge to fifty thousand dollars toward this larger fund. The time limit set for the completion of the fund was December 31, 1908. In the face of many difficulties, the President, with reliance upon the favor of God, prosecuted the campaign for the "Forward Fund of Two Hundred Thousand Dollars." In order to meet the spirit as well as the letter of the requirements of the conditional pledges, it was necessary to raise twenty-five thousand dollars more than the designated sum. When the canvass closed, the subscriptions amounted to two hundred and twenty-seven thousand dollars.

During the next few years there were, besides a steady increase of the permanent scholarship and annuity funds and numerous contributions for

minor but pressing needs of the College, several notable advances made: (1) by the gift of an endowment of sixteen thousand dollars by an anonymous donor, a Home Economics department was established; (2) by the gift of thirteen thousand and five hundred dollars by Louis H. Severance, Esq., a third story was added to Pearsons hall, providing dormitory room for fifty additional young women; (3) by the additional gift of twelve thousand dollars by the anonymous donor of the Mary Esther Home Economics endowment fund, it was possible for the College to add a third story to Fayerweather Science hall in order to provide quarters for the Home Economics department; (4) by the gift of twenty-three thousand dollars by the people of Maryville and Blount county, and by other gifts, as described in detail on another page, Carnegie hall was rebuilt larger and better than before the fire that destroyed it; and (5) chiefly by the gift of Mrs. Mary C. Thaw, additional dormitory rooms for fifty young women were, in 1918, built as a fourth story to Pearsons hall.

In January, 1916, the General Education Board, of New York, coming to Maryville's help for a second time, made a generous pledge of $75,000 to the resources of the College, on condition that $225,000 in addition be secured from other sources. The burning of Carnegie hall made it necessary that $25,000 be added to the total fund that was sought, thus increasing it to $325,000. The war intermitted the campaign for the fund, but it was renewed in March, 1919, and was carried to successful completion by the first of the following June. Not only was the Centennial Forward Fund of $325,000 secured, but additional amounts that could not, according to the conditions specified by the General Education Board, be counted toward this fund, were subscribed, that brought up the amount pledged (including the $325,000 fund and a large memorial building) to a grand total of $541,939.

Three causes conspired to make another large increase of endowment an imperative necessity: (1) The World war's upsetting of values and creation of increased cost of rents, fuel, and living in general, and, consequently, of heavier bills for supplies and larger budgets for salaries. (2) The unparalleled growth of the College, with the corresponding necessity of the provision of additional teaching force and equipment. Between 1918 and 1923, the college enrollment increased one hundred per cent. (3) The necessity to keep pace with the current magnificent forward march of our American college system of education, and to provide as efficiently for Maryville's students as do any other accredited colleges for their clientage.

In view of these facts, the College engaged in a campaign, which was also successful, seeking to secure an Emergency Forward Fund of $300,000, including an Athletic Fund sought by the alumni and old students. To this Emergency endowment fund liberal appropriations were made by the General Education Board, the Carnegie Corporation of New York, and the Presbyterian Board of Christian Education. The Alumni gymnasium, erected by the alumni and old students, is described on another page.

The building of Thaw Hall, first used in 1921, was a crowning benefac-

tion made possible by the generosity of Mrs. Mary C. Thaw, a lifelong friend of the College. And the enlargement of the Bible Training department, in 1926, into the Bible and Religious Education department, was brought about by the noble gift of $50,000 by an anonymous friend of the institution and of religious education; and by the gift of $58,000 contributed chiefly by two other anonymous friends. These amounts, supplementing the original endowment of $42,000 of the Bible Training department, made a total endowment of the enlarged department amounting to $150,000.

As the result of the generous contributions made through many years by many philanthropic donors, the College now owns property and endowment to the total amount of two million three hundred and forty-two thousand dollars. Of this amount one million five hundred and ninety-two thousand dollars is invested in endowment, and the remainder in buildings and equipment. On four hundred and twenty-five thousand dollars of the permanent assets, annuities are paid by the College.

Three hundred and sixty-four of the alumni have entered the ministry, while one hundred and twenty post-bellum alumni and undergraduates have been or are missionaries in Japan, China, Siam, Korea, Malaysia, India, Persia, Syria, Africa, the Philippines, Colombia, Venezuela, Brazil, Costa Rica, Chile, Mexico, Cuba, and Porto Rico. Many are laboring in home missions. Students who have gone from the College to the theological, medical, legal, and other professional schools have usually attained to high rank in their classes. A large number of the alumni are now studying in theological seminaries.

The necessary expenses are so phenomenally low as to give the institution a special adaptation to the middle class and to the struggling poor of valley and mountain—the great mass of the surrounding population—and to young people of other sections of the country where the cost of attending college is beyond their ability to defray.

The privileges of the institution are, of course, open alike to all young men and young women of good moral character, irrespective of their religious affiliation. All the leading denominations are largely represented in the student body.

LOCATION

Maryville, the county seat of Blount County, Tennessee, is a pleasant and thriving community, numbering, together with the twin corporation of Alcoa, more than ten thousand inhabitants. It is widely known as "the town of schools and churches." It is located sixteen miles south of Knoxville, on the Knoxville and Augusta division of the Southern Railway, and on the paved highway No. 33, leading out from Knoxville to the south and the new Smoky Mountain National Park. Maryville is reached from Knoxville by busses leaving from the bus terminal station at State and Union Streets every forty-five minutes throughout the day; and by the Southern Railway, which, however, has only one train a day.

Maryville is an ideal health resort for students from other States,

The town lies on the hills, one thousand feet above sea level, and enjoys the life-giving breezes from the Chilhowees and the Smokies, a few miles away. Young people from the North and other sections are greatly benefited in health by their residence at Maryville.

COLLEGE STATION POST OFFICE

A branch of the United States post office at Maryville is located on the campus. All the usual post office conveniences are furnished. Mail is delivered to the dormitories and offices. Students should have their mail addressed, College Station, Maryville, Tennessee, adding the name of the dormitory in which they room, and their room number.

GROUNDS AND BUILDINGS

The college grounds consist of two hundred and seventy-five acres, and for beautiful scenery are not surpassed by any in the country. They are elevated and undulating, covered with a beautiful growth of evergreens and with a noble forest, and command a splendid view of the Cumberland mountains on the north, and of the Smoky mountains on the south. The location is as remarkable for its healthfulness as it is for its beauty. The campus affords the choicest facilities for the development of athletics.

On these grounds there are nineteen buildings, which, together with the grounds and equipment, represent an investment of seven hundred and fifty thousand dollars. The buildings are heated with steam from the central power plant on the campus, and are lighted with electricity, and are abundantly supplied with pure water. The buildings, except three residences, are more fully described in the following paragraphs.

Anderson Hall is the oldest of the present college halls, having been built in 1869. It was named in honor of the founder of the institution. It contains the administrative offices and a number of recitation rooms. The large addition to the hall, the Fayerweather annex, was erected in 1892.

Baldwin Hall, named in honor of John C. Baldwin, of New Jersey, is a dormitory for young women. With its annexes, it contains rooms for one hundred and forty students. It is provided, as are all the dormitories, with modern conveniences, and is a comfortable home for young women. It is protected from fire by the Sprinkler System.

Memorial Hall, originally built as a companion building to Baldwin hall, contains rooms for sixty young women. It is kept in excellent repair, and is a comfortable and well-equipped dormitory. It also is protected from fire by the Sprinkler System.

Willard Memorial, the home of the President, was provided in 1890 by a generous gift of Mrs. Jane F. Willard, in memory of her husband, Sylvester Willard, M.D. It adorns the campus, and is a valuable property.

The Lamar Memorial Library Hall was erected in 1888 by three friends of Professor Lamar and of the College. The large memorial

window was contributed by the brothers and sisters of Professor Lamar. The building is a fitting monument to Professor Lamar. It is now occupied by the College Station post office and the book store.

Bartlett Hall is one of the oldest college Y. M. C. A. buildings in the South. Planned for by the students led by Kin Takahashi, a Japanese student, it was erected by contributions made or secured by the Bartlett Hall Building Association, supplemented by a large appropriation by the college authorities. A liberal donation made by Mrs. Nettie F. McCormick in 1901 enabled the committee to complete the building. In 1911, Mrs. Elizabeth R. Voorhees made a generous gift providing for extensive alterations and improvements. The Y. M. C. A. auditorium, parlors, and other rooms occupy the front part of the building, while a gymnasium occupies the rest of the structure. The ground floor of the building has been reconstructed during the past year at an expense of about twelve thousand dollars, and now affords one of the best-equipped series of gymnasium offices and other rooms to be found in this section.

Fayerweather Science Hall was erected in 1898 through the liberal bequest of Daniel B. Fayerweather. The building as erected was two stories in height. The first floor contains spacious laboratories for chemistry, a lecture-room, storerooms, and an office. The second floor contains lecture-rooms and laboratories for physics and biology. The laboratories are furnished with electric current and with gas. The building is provided with liberal equipment for the practical study of science, and will stand a useful and lasting monument to the intelligent philanthropy of the princely giver whose name it bears. In 1913 the anonymous donor of the Mary Esther Memorial Fund that provided for the establishment of the Home Economics department, also contributed funds for the building of the third and fourth floors of this hall for the housing of the Home Economics department, as an additional memorial of her mother. The third floor contains, besides cloakrooms, storerooms, closets, toilet, and lockers, a reading-room, dining-room, kitchen, sewing-room, lecture-room, and one small and one large biology laboratory. On the fourth floor are three rooms for general purposes.

The Elizabeth R. Voorhees Chapel was erected in 1905-1906 by gifts made by Mr. Ralph Voorhees, of New Jersey, and by other donors. The chapel, named in honor of Mrs. Voorhees, graces one of the most commanding sites on the grounds, and is well worthy of its place of distinction. The auditorium seats nine hundred persons and can be arranged to accommodate two hundred or three hundred more. The building also contains thirty-five rooms, occupied by the departments of Music and Expression.

The Ralph Max Lamar Memorial Hospital, named in honor of Mrs. Lamar's only child, who died in infancy, was built in 1909 through the generosity of Mrs. Martha A. Lamar, a lifelong friend of the College. Her gift provided a thoroughly modern hospital building, containing

eleven wards, caretakers' rooms, baths, toilets, an operating-room, and other appointments of a well-ordered hospital.

CARNEGIE HALL.—In connection with the "Forward Fund" secured in 1908, Mr. Andrew Carnegie gave the sum of fifty thousand dollars for a dormitory for young men. The building was occupied at the opening of the fall term in 1910, and was dedicated on January 11, 1911. On April 12, 1916, the building was totally destroyed by the only serious fire occurring in the history of the College. The insurance of thirty thousand dollars was promptly paid, and preparations for rebuilding were immediately begun. On May 4, 1916, the Maryville Chamber of Commerce, through a committee of sixty leading business men, undertook to raise a rebuilding fund of twenty-five thousand dollars among the citizens of Maryville and Blount county. Of this amount, the faculty of the College subscribed five thousand dollars. The new building was completed in December, 1916, at a cost of nearly seventy thousand dollars, and was occupied at the opening of the winter term in January, 1917. It contains rooms for two hundred and thirty-five young men. Each of the two large wings contains a suite for the use of a proctor and his family. The building is in every way satisfactory, and is one of the best college dormitories in the South.

PEARSONS HALL.—No benefaction has proven more serviceable than the gift of twenty thousand dollars made in 1908 by Dr. D. K. Pearsons, of Chicago. The building named in his honor provided additional dormitory facilities for young women, and a greatly needed new boarding hall. The first story contains a dining-room, with a seating capacity of six hundred, the kitchen, offices, and waiting-rooms. The second story contains parlors, halls for the young women's literary societies, and rooms for thirty-four occupants. The third story was added during the vacation months of 1912, increasing the capacity of the dormitory so that fifty additional young women could secure rooms. This story was a gift of Louis H. Severance, Esq., of Cleveland, Ohio, "an admirer of Dr. Pearsons, who esteemed it a privilege to put this crowning story upon his building." In 1918, the hitherto unfinished fourth floor was converted into dormitory rooms, providing increased capacity for fifty more young women.

THE SWIMMING POOL.—In the original plans of Bartlett hall, as secured by Kin Takahashi, there was provision made for the building of a swimming pool beneath the gymnasium. Lack of funds prevented the construction of the pool. In April, 1914, the Y. M. C. A. cabinet led in a movement, which rallied around it the entire student body, looking to the construction of the proposed pool. The enthusiastic efforts of the students completed the raising of fifteen hundred dollars in cash toward the cost of the pool. The college authorities then undertook the building of the pool. The total cost was ten thousand dollars. It was opened for use at the beginning of the fall term of 1915. The pool occupies a separate building fifty-eight by one hundred and ten feet. The pool itself is twenty-

five by seventy-five feet in dimensions. The pool is a means of health and of useful sport to the students.

"The House in the Woods," situated in a picturesque part of the spacious college campus, was built and endowed in 1917 for the use of the present College Pastor and his successors, by a lifelong friend of Mrs. William P. Stevenson, as a memorial of Mrs. Stevenson's father and mother, Mr. and Mrs. William Cooper. It is a thoroughly well-built house, provided with every modern convenience, and, together with its charming woodland setting, makes a most attractive and comfortable home.

Thaw Hall, the largest structure on College hill, costing over one hundred and fifty thousand dollars, was begun in 1920. The second floor was first used for recitations in September, 1921. The building measures two hundred and thirty feet in length and one hundred and forty feet in depth. This noble building, made necessary by the great growth of the institution, was made possible by the generosity of Mrs. Mary C. Thaw. At the urgent request of the directors, the faculty, and the students of the College, to the end that the long-continued helpfulness of the Thaw family in the upbuilding of Maryville College should be kept in memory, the donor consented, though reluctantly, that the building should be named Thaw Memorial Hall. The building occupies the central place in the plans of the architects and landscape gardeners for the development of the campus.

The Alumni Gymnasium.—In 1922, as the first result of the Alumni and Former Students' Athletic Campaign, an excellent and ample athletic field, five hundred feet square, was graded. In the fall of 1923, as the second result of the same campaign, an additional gymnasium, to be known as the Alumni Gymnasium, was built and occupied. The alumni, old students, present students, and the local post of the American Legion contributed toward the erection of the building. The gymnasium is one hundred and ten feet square, has a maple floor and collapsible tiers of seats, and is well lighted and heated.

The Power Plant.—Steam heat for all the buildings is furnished from the central power house situated on the campus, and the buildings are quickly and uniformly heated. Steam from the plant is used also for cooking and for dish-washing at the boarding club.

THE LAMAR MEMORIAL LIBRARY

The Lamar Library is one of the largest college libraries in the State. The number of books now on the shelves is over thirty thousand. The library is housed in attractive and commodious quarters in Thaw hall, and is open for the drawing of books, or for the consulting of volumes in the reference alcoves, for eleven hours every day from Monday to Saturday. About thirty-five hundred dollars is expended annually in the purchase of books.

THE LOAN LIBRARY

James R. Hills Library.—In 1888 Miss Sarah B. Hills, of New York, contributed a fund for the establishment of a loan library, in order that students unable to purchase the necessary text-books might have the privilege of renting them at a nominal rate. By judicious management the income from this fund has grown until now the privileges of this library are open to all students, and all the regular text-books used in the institution may be either rented or purchased.

STUDENTS' ORGANIZATIONS

The Student Council.—This Council was organized in 1923, and consists of regularly chosen representatives of the four college classes. Its objects are: to furnish a representative body of students, who, by virtue of their position and influence in student affairs, shall be able to express the sentiment of the student body; to cooperate with the Faculty in maintaining Maryville College ideals and the traditions and customs of the College; to serve as a medium of communication between the students and any other party seeking to carry out a plan approved by the Council and by the Faculty. The officers of the Council for 1929-1930 are as follows: President, James Edward Sprouse; Vice-president, Carol Celeste Cushman; and Secretary-Treasurer, William Thomas Whitman, Jr.

The Literary Societies.—Four literary societies are conducted by the students, and are of the greatest benefit to those who avail themselves of the advantages they offer. The ATHENIAN, organized in 1868, and the ALPHA SIGMA, organized in 1882, are composed of young men. Their halls are on the third floor of Anderson hall. The BAINONIAN, organized in 1875, and the THETA EPSILON, organized in 1894, are conducted by the young women. They have neatly furnished halls in Pearsons hall. The societies meet every Saturday evening to engage in debates and other literary exercises. Each society gives annually a public midwinter entertainment.

The Y. M. C. A. and Y. W. C. A.— The Y. M. C. A., established in 1877, is one of the strongest organizations of its kind in the South. The weekly devotional meetings are held on Sabbath afternoons in the auditorium of Bartlett hall. The officers of the Association are as follows: President, Joshua Stuart James; Vice-president, Carl McKinley Storey; Secretary, Morgan Clarence Biggs; Treasurer, John Ben Pectol. The Advisory Committee of the Y. M. C. A., composed of representatives of the Faculty and of the student body, directs the general policies of the Association. It consists of the following members: Class of 1930: President Wilson, Professor McMurray, and Frank Edward Baker; Class of 1931: Professor Howell, Chairman, and Professor Hunter; Class of 1932: Professors Knapp and Orr, and Homer Eldon McCann.

The Y. W. C. A. was established in 1884, and is one of the most wholesome influences in the religious life of the College. The Association

has attractively furnished rooms, where social gatherings and the weekly devotional meetings on Sabbath afternoons are held. The Association has a small but valuable library, known as the Florence McManigal Memorial Library. It was contributed by Rev. J. Oscar Boyd, Ph.D., D.D., Secretary of the American Bible Society, at Vienna, Austria, and his wife, as a memorial to their sister, Miss McManigal, '08, who was an instructor in the Preparatory School and who died in 1909. The officers of the Association are as follows: President, Cora Louise Carson; Vice-president, Mary Elizabeth Deaderick; Secretary, Julia Frances Terry; Treasurer, Willie Nell Harold; Advisory Committee: Mrs. W. P. Stevenson, Miss Clemmie Henry, Miss Mary E. Caldwell, Miss Susan A. Green, Mrs. Sam H. Franklin, Mrs. Mary M. Minton, and Miss Helen Gamble.

The Athletic Association.—By action of the Directors of the College, the control of athletics is vested in the Faculty. The Faculty operates both directly and through their Committee on Athletics. The Athletic Director, appointed by the Directors of the College, is a full professor of the institution, and is a member of the Faculty Committee on Athletics. Cooperating with this committee is the Athletic Association. This organization is composed of the entire student body by virtue of the payment of the students' activities fee. The Advisory Board of this Association meets when occasion may arise for the cooperation of the Association with the Faculty Committee on Athletics.

The members of the Advisory Board, whose officers are also the officers of the Athletic Association, are as follows: President, Robert William Watkins; Vice-president, Lewis Heath Reed; Secretary, John Baehr Taggart; Treasurer and Official Buyer, College Treasurer Proffitt; Faculty Representatives, Dr. James H. McMurray, Robert C. Thrower, and *ex-officio,* Professor Lombe S. Honaker; Student Representatives, Earl Winston Blazer, Edith Elizabeth Nash, and Ralph Dosser Waddell; Business Men, George W. Burchfield, M.D., and Mr. Charles L. Smith.

The Ministerial Association, organized in 1900, is composed of those students that are candidates for the Christian ministry. It has for its object the enlistment of its members in various forms of active Christian work and the discussion of themes relating to the work of the ministry.

The Student Volunteer Band.—The College has, from its earliest history, been identified with foreign missions, and has sent out one hundred and twenty missionaries into eighteen foreign countries. Since 1894 the students have maintained a Student Volunteer Band, composed of those who are pledged to enter some foreign field, if the way be open. The Band meets weekly to study missionary fields and conditions.

The Law Club.—The young men that are studying with a view to entering the profession of law maintain an organization known as the Law

Club. Their purpose is to familiarize themselves with the features of their contemplated life-work, and to develop high moral standards and ideals in connection with their profession.

The Pre-Medical Club.—Students preparing for the practice of medicine, including both those in the regular classes and those taking the special pre-medical course, have organized with a view to a better understanding of the problems and interests of the medical profession.

The Chemistry Club.—Interest in chemical science has led to the organization of a club whose object is to stimulate collateral reading and investigation on the part of the students of chemistry.

Le Cercle Francais.—Opportunity is offered for those who are interested in the promotion of French to further their study outside of classroom work through the production of French plays, readings, songs, and conversation, in a French club.

Foro Español.—For the purpose of cultivating interest and proficiency in the Spanish language, especially in its spoken form, a Spanish club has been organized. The club is sponsored by the teachers of Spanish and is open to the students of all the Spanish classes.

ALUMNI ASSOCIATION

The Alumni Association was formed in 1871. It holds its annual meeting on the evening before Commencement day, when a banquet is given by the Association. The officers for 1929-1930 are as follows: President, John S. Eakin, '87; Vice-president, Florian Goss Hopkins, '29; Secretary-Treasurer, Estelle Snodgrass Proffitt, '08; Executive Committee: Class of 1930: Leola Davis Fowler, '22, Horace Lee Ellis, '98, and Mark Blaine Crum, '17; Class of 1931: Nellie Pearl McCampbell, '09, Earl Anderson Storey, '27, and Volta Francis Goddard, '13; Class of 1932: Ambrose L. Jones, '92, George Farnham Crawford, '28, and James Claude McTeer, '07.

THE Y. M. C. A. AND Y. W. C. A. LYCEUM COURSE

For several years the Y. M. C. A. conducted for the student body and the public a course of lectures and entertainments. The course is now under the joint management of the Y. M. C. A. and Y. W. C. A. The course consists of popular lectures, musical, elocutionary, or dramatic entertainments of the highest order of excellence. The course is provided at a very small cost to the student, the cost being included in the students' activities fee. Tickets are sold also to the public, but at a higher rate.

FORENSIC CONTESTS

Maryville College has the distinction of having the Tennessee Alpha Chapter of the national forensic society, Pi Kappa Delta. The local chap-

ter acts with the Faculty Committee on Intercollegiate Literary Contests as the governing body for intercollegiate forensics. All students who represent the College in debate or oratory are eligible to membership in the chapter, and are thereupon entitled to wear the insignia of the society.

Ten Tennessee colleges compose the Tennessee Oratorical League. The central event of the activities of this League is an annual intercollegiate oratorical contest. An annual prize of $100 is provided by the estate of Mr. John A. Patten, of Chattanooga. The institutions composing the League are Carson and Newman College, Cumberland University, Maryville College, Southwestern, Tusculum College, Union University, the University of Chattanooga, the University of the South, the University of Tennessee, and Vanderbilt University.

The College annually engages in a number of intercollegiate debates. Credit is given for participation in intercollegiate debates. For the method used in selecting debaters and orators, see the description of the course, English 15.

PRIZES

The William H. Bates Oratorical Prize Foundation.—The Rev. William H. Bates, D.D., of Greeley, Colo., contributed the sum of one thousand dollars to form a fund, the annual income from which is to be used to provide a prize in oratory. The winner of the Bates prize in oratory in 1929 was James Hayden Laster, '30. The contests are open to the men of the Junior and Senior classes in one year, and to the women of the Junior and Senior classes in the next year. In 1930, the contest is for the young women.

The Bible and Religious Education Department Prize Foundation.—An additional gift of two thousand dollars was made by Rev. William H. Bates, D.D., of Greeley, Colo., for the establishment of this foundation. The income of the foundation shall constitute a fund to be known as the Bates Bible Prize, which shall annually be awarded, under certain stipulations, for proficiency attained in Bible study. The foundation is subject to an annuity.

The T. T. Alexander Prize Fund, established by a generous friend of the College, who desires to remain anonymous, and to have the prize named in honor of one of Maryville's foreign missionaries, provides a prize of one hundred dollars in gold to be awarded annually to the winner of an oratorical contest conducted under the supervision of the department of Bible and Religious Education. The subjects chosen for the contest in 1930, in which young men will participate, and in 1931, in which young women will participate, are the following: The Deity of Jesus Christ; Christ's Atonement for Sin; The Resurrection; and Salvation through Faith. The winners of the contest in 1929 were Anna Lou Miller, '29, and Viola Victory Petitt, '30.

The Elizabeth Hillman Chemistry Prize Fund.—The sum of one thousand dollars was contributed in 1919, by Miss Sara F. Hillman,

of Pittsburgh, Pa., to establish a fund, the income of which will be used, at the discretion of the donor, to provide "a prize or prizes to be awarded to women students for excellence attained in the Department of Chemistry." The prizes offered in 1929, together with the respective winners, were as follows: Prize essay in advanced chemistry courses, $25, Susanna Faye Lequire, '31, "The Relation of Chemistry to the Home." First prize essay in Freshman chemistry course, $25, Marion Adelaide Allen, '32, "Rayon, Man-made Silk." Second prize essay in Freshman chemistry course, $10, Isabelle Elizabeth Marshall, '32, "The Relation of Chemistry to the Enrichment of Life."

The Rush Strong Medal.—Under the provisions of the will of Mr. Benjamin Rush Strong, of Knoxville, Tenn., a gold medal, valued at "not less than fifteen, nor more than twenty-five dollars," and known as the Rush Strong Medal, is annually granted to the member of the Freshman class "who shall compose the best essay upon the subject, 'The Value of Truth.'" The medal was won in 1929 by George Emmett Brown.

The Alexander English Prize. Through the generous provision of Dr. and Mrs. John McKnitt Alexander, an annual prize, at the present amounting to twenty-five dollars, later to reach a larger amount, is offered to the member of the Senior class who makes the best four-year record in English.

PHYSICAL TRAINING

Classes are conducted by the physical directors daily, and all students are required to avail themselves of the privilege afforded until four hours' credit has been earned, unless excused by reason of physical disability. Excuses for any other reason must be approved by the Faculty, upon the recommendation of the Professor of Physical Training, before being accepted. A physical examination is required annually of every student. The classes for the young men and the young women meet in separate gymnasiums under the direction of their respective physical directors. The work offered is carefully graded and adjusted to the needs of the various classes. Credit equivalent to one recitation hour is given for each two hours' gymnasium work. Every young woman should bring a gymnasium suit, consisting of middy and bloomers, and gymnasium or tennis shoes. Every young man should bring a regulation white gymnasium suit, consisting of sleeveless shirt, running pants, support, and gymnasium or tennis shoes.

The swimming pool is open at scheduled hours for the young men and at other scheduled hours for the young women. Careful supervision of the pool is given at all times, and no one is permitted in the pool except when a swimming instructor is present. The pool is kept in the best sanitary condition. Shower baths in separate rooms are provided, and are required to be used before a person is permitted to enter the pool.

ELIGIBILITY RULES

In order that athletic and forensic contests may not militate against excellence of classroom work, but that they may become, in a measure,

a direct aid in maintaining high standards of scholarship, the following regulations have been adopted, to apply to all athletic and forensic contests, except those that are intramural:

To be eligible to membership on any college team during the year, a student must enroll not later than October 1st.

No person who is not a regularly matriculated student, enrolled for a program of at least twelve hours a week, and certified by his instructors to be maintaining a passing grade in twelve hours, shall represent the College in any athletic or forensic contest.

Eligibility reports are made by the instructor biweekly beginning with the third Wednesday of the first semester, upon all candidates for positions on any college team. Disqualification because of failure to meet the requirements set forth in these rules becomes effective on the Tuesday immediately following the Wednesday on which such disqualification is reported by the instructor, and is operative for two full weeks from the time of its going into effect.

Special students are not eligible to represent the College in athletic contests.

MEDICAL ATTENTION

The Ralph Max Lamar Memorial Hospital, spoken of elsewhere, is available for out-of-town students. In cases of slight illness no charge is made for nursing, but the patient pays $7.00 a week for the use of the ward, and for board and laundry. In cases of protracted illness demanding more than ordinary time and attention, a nominal charge is also made for the nursing. In cases of serious illness, registered nurses will be secured at the expense of the patient. On Tuesday, Thursday, and Friday of each week free medical consultation and prescription by approved physicians are provided at the hospital for out-of-town students. Any other medical attention, however, that may be required must be paid for by the student. These privileges have been responded to with marked appreciation by the student body, and the medical attention thus afforded has now for many years been of great service in promoting health and in checking illness.

SELF-HELP

The College offers opportunities of self-help to a large number of deserving young men and young women. About five hundred annually avail themselves of such opportunities. The work offered includes manual labor on the grounds, janitor service in the various buildings, dining-room and kitchen service at the boarding club, sewing in the College-Maid shop, office work, and work as assistants in laboratories or libraries. These forms of employment are paid for at a rate varying according to the degree of skill and responsibility involved. The more responsible work is allotted usually to students that have previously given proof of their ability and worth. Assistants in any department are elected by the Faculty upon the recommendation of the head of the department.

Application for work of any kind must be made in writing and addressed to Miss Clemmie Henry, Student-help Secretary, Maryville College, Maryville, Tennessee. The acceptance of financial aid from the College, in the form of scholarships, loans, or opportunities for work, involves especial obligation to diligence, loyalty, and the faithful discharge of duty. A student that fails to do satisfactory work or becomes an object of discipline by the Faculty will forfeit all such opportunities.

COLLEGE PUBLICATIONS

The official publication of the College is THE MARYVILLE COLLEGE BULLETIN. It is issued quarterly and is sent free to any who apply for it. The May number of each year is the annual catalog. THE HIGHLAND ECHO is issued weekly by the students, the editorial staff consisting of members of the four college classes, selected on a competitive basis. THE CHILHOWEAN is issued annually by the Junior class. It is a yearbook of the student body, containing a summarized record of the year's work in all the departments and organizations of the College, and is an attractive souvenir. THE MARYVILLE HANDBOOK is issued annually by the Christian Associations. It is intended to present the work of the Associations to new students, and also to assist them in adjusting themselves to their new environment.

A CENTURY OF MARYVILLE COLLEGE

At the request of the Directors of Maryville College, President Wilson, in 1916, gathered into a volume entitled "A Century of Maryville College—A Story of Altruism," the romantic story of the institution from its inception to its centennial. "It was the writer's good fortune to be at first a student and then a colleague of Professor Lamar, who in turn was a student and then a colleague of Dr. Anderson; and so the writer received almost at first hand the story of Maryville, extending from the beginning down to the time when he himself entered the faculty of the College." The Registrar will mail the book, postpaid, upon the receipt of one dollar the copy.

In 1920, Mrs. Martha A. Lamar published a memorial biography of her husband, Professor Thomas Jefferson Lamar, which was written by President Wilson. In it is given in some detail the remarkable story of the services of the second founder of Maryville College.

BEQUESTS AND DEVISES

Since each State has special statutory regulations in regard to wills, it is most important that all testamentary papers be signed, witnessed, and executed according to the laws of the State in which the testator resides. In all cases, however, the legal name of the corporation must be accurately given, as in the following form:

"I give and bequeath ..... to 'THE DIRECTORS OF MARYVILLE COLLEGE,' at Maryville, Tennessee, and to their successors and assigns forever, for the uses and purposes of said College, according to the provisions of its charter."

EXPENSES

It is the constant aim of the College to provide the best college advantages to the student at the lowest possible rates, and the endowment enables it to make its charges very moderate. College bills must be paid invariably in advance. Until the required advance payments are made, no one can become, or remain, a member of any of the classes. Credits will not be given or diplomas of graduation issued until all accounts with the College have been satisfactorily settled. In view of the very low rates, no deduction will be made for absence at the beginning or at the end of any term, and no tuition will be refunded. Students, except those entering for the first time, that register and attend classes later than the third day of the first semester, or the first day of the second semester, pay a late registration fee of five dollars. The itemized schedule that follows gives the rates for each semester. Allowance must be made, also, for one's purely personal expenses, in addition to the bills payable to the College. This allowance will vary according to the tastes and habits of the individual student, but need not exceed one hundred dollars for the year.

ITEMIZED BILLS FOR EACH SEMESTER

(Double these rates will give the amounts for the year)

TUITION: All regular curriculum courses	$ 25.00
Music (vocal or instrumental), one individual lesson a week	15.00
Piano, under Head of Department	20.00
Class lessons in Rudiments of Music, Theory, Harmony, or History of Music	5.00
Expression, first year: one half-hour individual lesson and two class lessons a week	24.00
Expression, second and third years: one one-hour individual lesson and one class lesson a week	24.00
Story Telling, one class lesson a week	3.00
Art, one three-hour lesson in oil or water-color painting a week	15.00
FEES: Incidental fee (payable by all students)	3.00
Library fee (payable by all students)	4.00
Students' activities fee (payable by all students and entitling them to the use of the athletic equipment, admission to all regular athletic and forensic contests in Maryville, admission to the Lyceum Course, one subscription to the *Highland Echo,* and the use of the Y. M. C. A. or Y. W. C. A. rooms and equipment)	5.00
Late-registration fee (payable only by those entering later than the third day of the first semester or the first day of the second semester)	5.00
Laboratory fee in Chemistry (each course)	6.00
Laboratory fee in Biology or Physics (each course)	4.00
Laboratory fee in Domestic Science (each course)	6.00
Laboratory fee in Domestic Art (each course)	2.00
Instrument fee in Surveying	2.00

Breakage deposit for Sciences (each course)	$ 2.00
Key deposit	1.00
Piano rental (an hour a day)	6.00
Graduation fees (payable at beginning of second semester of the graduating year):	
Bachelor of Arts course	5.00
Non-degree courses (e.g., Music)	2.50
TEXT-BOOKS: Rented for about one-fifth the retail price of the book.	6.00
ROOM RENT: In Carnegie hall	$15.00 to 25.00
In Memorial hall	21.00 to 25.00
In Baldwin hall	21.00 to 25.00
In Pearsons hall	20.00 to 25.00
BOARD: In the boarding club, $3.50 a week, approximately	65.00

In private families, about $6.00 a week.

The rates in the itemized schedule do not include room rent or board for the Christmas vacation period.

APPROXIMATE TOTAL OF COLLEGE BILLS FOR EACH SEMESTER:

For the student not taking music, expression, or art, about	$145.00
For the student taking chiefly music, expression, or art, about	170.00

THE BOARDING CLUB

No other agency has been of greater service in enabling the College to keep the expense to its students at a minimum than has the boarding club. The price of board, which at present is $3.50 a week, is based upon the cost of food and service, plus the cost to the College for the maintenance of the club's quarters. A deposit to the amount of one month's board bill is required in advance of each member of the club, and settlements are thereafter made at the end of every fourth week. Because of the minimum rate at which board is furnished, a member's account with the club is reckoned from the beginning of the college month during which he enters. A considerable number of students are employed as waiters and assistants in the dining-room, who are thereby enabled to reduce the cost of their board by one-half. The privileges of the club are extended to all male students and to all young women rooming in the college dormitories. The membership of the club has been nearly six hundred this year.

ROOMS IN THE DORMITORIES

Every prospective student desiring to room in a dormitory must make a five-dollar deposit with the Registrar in order to secure a reservation. The Registrar will send the applicant a deposit receipt, which, if presented by the student when he enters college, will be accepted by the Treasurer for credit on the student's college bills to the amount, and for the semester, specified thereon. The dormitory room, however, will not be held beyond the opening day unless the room rent is paid for the semester in ad-

vance. The deposit receipt is not transferable, and the deposit will be forfeited if the student does not enter college. Until Commencement week, old students are given preference over new applicants. After that date, rooms are assigned in the order of application, except that applicants whose certificates, also, have been received and approved will be given precedence over those who have sent in only their room deposit.

All the dormitories are heated with steam and lighted with electricity, and are fully supplied with wardrobes, baths, and toilets. All the rooms contain the following articles of furniture: individual iron bedsteads, springs, mattresses, tables with built-in bookcases, chairs, and, for young women, dressers; for young men, chiffoniers. The student will provide bedding and any other necessity not here specified. Two students occupy one room.

ROOMS IN TOWN

Young men can find comfortable furnished rooms in private residences in convenient parts of town at prices ranging from $4.00 to $5.00 a month for each student.

LAUNDRY

Laundry work can be arranged for with local laundries or with private laundresses at charges averaging about seventy-five cents to one dollar a week.

REQUIREMENTS FOR ADMISSION

ADMISSION TO THE FRESHMAN CLASS

An applicant for admission to the Freshman class in any course is expected to be at least sixteen years of age, and of good moral character. He must make formal application on the blank provided by the College for that purpose. He must be a graduate of an accredited, four-year high school, or show equivalent preparation as determined by entrance examinations. The minimum amount upon which any applicant may be admitted is fifteen units. A unit is the equivalent of five forty-five-minute recitation periods a week for thirty-six weeks, in subjects above the common-school branches.

Admission by Certificate.—Graduates of accredited, four-year high schools may be admitted without entrance examinations, provided that both the official forms, (1) Application Blank, and (2) Principal's Certificate, have been received and approved by the Committee on Entrance and Advanced Standing not later than one week before the opening day. Entrance credit and classification granted on certificates are provisional, and will be canceled if the student is found to be deficient. Applicants are not admitted on diplomas. The regular application blank of the College, a copy of which will be mailed by the Registrar upon request, contains full instructions to the applicant concerning its use. The College will send directly to the high school for the applicant's high-school credits and general record.

Admission by Written Examination.—Written examinations will be given by the Committee on Entrance and Advanced Standing during the opening week for candidates who have filed satisfactory application blanks and testimonials as to character, but who do not have certificates of credit as provided for in the foregoing paragraph, or whose certificates may be found to be insufficient.

Number of Applications Approved.—The teaching facilities of the College warrant the acceptance of three hundred applicants for admission to the Freshman class in September. No one is considered an applicant, however, until his certificates of credit and testimonials as to character have been received. Until the limit of three hundred has been reached, relative merit, as evidenced by the applicant's high-school record in scholarship and character, his purpose in seeking admission to college, and the like, have quite as much bearing upon the approval of an application, as does the order in which the applications are received.

Time Limits for Filing Applications for Admission.—The applicant should notify the Registrar of his intention to enter college, and should also make the required room deposit, at as early a date as possible. Certificates of credit and testimonials as to character need not be sent in until the

applicant has graduated from the high school, but should be sent in immediately after graduation, and by the Principal himself. The time limit for filing certificates of credit and testimonials as to character is one week before the opening date. The limit of three hundred Freshmen, and the capacity of the dormitories, however, are reached some weeks before the time limit. Applicants failing to send in their credentials early can not, therefore, be assured admission. The applicant should ask for a copy of the published "Rules for Scholarship, Attendance, and Conduct," and see to it that he is fully prepared to meet the requirements of the college in all respects.

Distribution of Entrance Units.—The fifteen units presented in satisfaction of the entrance requirements must be distributed as follows:

English

Three units are required. The requirement is that recommended by the National Conference on Uniform Entrance Requirements in English. The student must have a practical knowledge of technical terminology and syntax, and manifest the ability to write correctly and clearly, with good usage as to spelling, punctuation, capitalization, sentence structure, and paragraphing. His reading and studies in English and American Literature shall include the texts prescribed by the National Conference.

A fourth unit in English will be accepted at the discretion of the Committee on Entrance.

Languages other than English

In view of the fact that many high-school students, although thoroughly prepared in general subjects for their college work, are, nevertheless, deficient in foreign-language study, the requirements in foreign languages are stated in connection with the requirements for graduation from college, in terms that include the quantity equivalent of both high-school and college work in foreign languages. No units in foreign languages, therefore, are required for admission.

It is greatly to the student's advantage, however, to present two or four units for entrance, since by so doing he may reduce the number of hours to be taken in foreign languages while in college, and thereby obtain greater freedom in the matter of elective courses. Two additional units, or a total of six units in not more than two languages, will be accepted upon evidence of exceptionally good work. First-year work in any language is not credited for more than one unit. Such a unit may, if it evidences good work, be accepted for entrance, but unless supported by at least one unit of advanced study in the same language, does not count toward the satisfaction of the language requirement.

The languages that may be offered, together with the number of acceptable units in each, are, Latin, 2, 3, or 4; Greek, 2; French, 2; German, 2;

Spanish, 2. Any credit allowed as part of the total language requirement will be canceled if the student does poor language work in college, and the amount to be taken in college will be proportionately increased.

Mathematics

Two units are required. Required algebra: Elementary work taken in the grammar grades is not accepted. Higher work to a maximum of two units is accepted, but the study of algebra must, at least, include ratio and proportion, radicals, and quadratics. Required plane geometry: Five books, together with original demonstrations.

One elective unit in mathematics will be accepted for good work in solid geometry (one-half unit), and plane trigonometry (one-half unit).

Science

One unit is required. This unit may be offered in general science, botany, zoology, physiology, chemistry, or physics, but will be allowed only one-half credit if the school in which the subject was taken lacked adequate facilities for the teaching of the subject, or if the student had not sufficient laboratory practice to entitle him to full credit.

History

Not strictly a required subject, but an elective that is strongly recommended. One-half to one unit will be accepted for work of good quality in ancient, medieval and modern, English, or advanced United States history, or civics, respectively. Not more than four units will be accepted in history, but in the case of exceptional students one-half to one unit in civics, when taken separately from the history, may be accepted in addition to four units in history.

Electives

Nine units of the necessary fifteen units may be elected. The elective units in English, mathematics, sciences, and history, and units in foreign languages, mentioned above, may be included. Additional subjects in which elective units may be offered, together with the acceptable minimum and maximum number of units in each subject, are as follows: agriculture, 1; Bible, 1 or 2; bookkeeping, 1; commercial geography, 1; commercial law, 1; domestic art, 1 or 2; domestic science, 1 or 2; geology, 1; manual training, 1 or 2; musical appreciation, harmony, or theory, 1; mechanical drawing, 1 or 2; physical geography, 1; stenography and typewriting, 1; teacher training, 1 or 2. Not more than four units in vocational or commercial subjects are accepted.

ADMISSION OF SPECIAL STUDENTS

Applicants over twenty-one years of age, who have not completed fifteen units of high-school work, but who are able to demonstrate their fitness to do college work, may be admitted to college classes as special students, not candidates for the degree, for work for which they are qualified. They have the usual privileges of the libraries, the literary societies, the dormitories, and the boarding club. In case a special student decides to become a candidate for the degree, he must satisfy the entrance requirements in full within two years from the time of his admission, and accept the classification to which his credits entitle him.

ADMISSION TO DEPARTMENTS OF SPECIAL INSTRUCTION

Students in any of the regular classes may take work in music, expression, or art, in connection with their regular curriculum subjects, to any amount conformable to the regulation governing required and permitted hours. Students rooming in the college dormitories are expected to be pursuing courses of study leading to the bachelor's degree. If, therefore, they are taking music, expression, or art, they are required to take also a sufficient number of literary courses to total fifteen recitation hours a week, exclusive of the physical-training requirement. One private lesson a week in music, expression, or art, together with required practice and necessary supplementary work in the subject privately taken, may be counted as three hours of the required fifteen, but may not be credited toward the degree. For the exception in the case of certain work in expression, see the description of that work under department of Expression.

ADMISSION FROM OTHER COLLEGES

Admission from other colleges is granted only to such applicants as have filed, at least one week before the opening of the college year in September, a letter of honorable dismissal and certificate of credit from the institution last attended, showing that the applicant has completed at least one full year's work in that institution. This certificate must also show any previous transfer from another institution, together with a full record of the applicant's work therein. The record of entrance units must show that the requirements for admission to the Freshman class of Maryville College have been met. Credits thus transferred are accepted tentatively, and do not become a part of the student's record until he has satisfactorily completed at least one semester's work at Maryville. Graduates of accredited Junior colleges will be admitted to the Junior class of Maryville College, but following their admission they will be required to complete

at least two years' work (sixty semester hours), before being granted the bachelor's degree. Applicants presenting themselves without letters of honorable dismissal, or whose certificates of college work show deficiencies that would have caused them to be dropped, or to fail of promotion, under the quality-credit rule, are not admitted. Students are not admitted by transfer from other colleges during the college year. Candidates are not admitted to the graduating class for less than one full year's residence work.

REQUIREMENTS FOR GRADUATION

THE REQUIREMENTS IN GENERAL

The College confers only one degree in course: that of Bachelor of Arts. To attain the degree a minimum of one hundred and twenty-six semester hours of quantity credit, including four hours in physical training, must be completed, and, in addition, one hundred and twenty-two quality credits must be earned. A semester hour, or quantity credit, is the equivalent of one hour of recitation a week for eighteen weeks, two hours (one double period) of laboratory practice being regarded as the equivalent of one recitation hour. The distribution of the one hundred and twenty-six credit hours, by years and by subjects, is shown in the following table:

Subject or Department	Freshman		Sophomore		Junior		Senior		Total No. Hours
	1st Sem.	2nd Sem.	1st Sem.	2nd Sem.	1st Sem.	2nd Sem.	1st Sem.	2nd Sem.	
Bible	3 or 3		3 or 3		2		2		10
English	3	3	3 or 3						9
History			3	3					6
Languages: Greek, Latin, French, German, Spanish	*	*	*	*					‡30
Mathematics	3 or 3								3
†Natural Sciences: Biology, Chemistry, Physics	3 or 6	3 or 6	[3]	[3]					12
Philosophy							3	3	6
Psychology					3	3			6
Major Subject					3 or 6	3 or 6	3 or 6	3 or 6	18
‡Minors and Electives			3 to 6	3 to 6	5 to 8	7 to 10	4 to 7	6 to 9	‡22
Physical Training	1	1	1	1					4
Total Hours	16	16	16	16	16	16	15	15	126

*See the requirements in detail.

†One year's work in each of two departments must be taken.

‡The number of hours required in foreign languages decreases to a minimum of 12, and the number of hours available for free electives increases to a possibility of 40, in proportion to the number of units in foreign languages accepted for entrance.

THE REQUIREMENTS IN DETAIL

Bible and Religious Education.—Of all students: 10 hours, including Courses 1, and 23, 22, 35, or 6. For the major sequence: 28 hours, including the required courses. For a minor: 12 hours above Freshman courses.

Education.—For the major sequence: 18 hours, including Courses 3, 8, 32, 33, and 37. For a minor: 12 hours, including Courses 3, 32, and 33. The student that expects to teach is advised to elect, also, such additional courses in education and psychology as may be required for certification in the State in which he expects to teach.

English Language and Literature.—Of all students: 9 hours, Courses 1, 2, and 3. For the major sequence: 27 hours, including Courses 1, 2, 3, 5, 6, 8, 28, and 20. Course 15 does not count as a part of the major sequence in English. The student majoring in English Language and Literature is advised, also, to do his modern-language work in French and German. For a minor: 12 hours above Freshman courses, including Courses 5 and 6, and any other course, except 15.

History.—Of all students: 6 hours. For the major sequence: 24 hours, including the required six hours. For a minor: 12 hours.

Home Economics.—For the major sequence: 28 hours, Courses 16, 17, 18, 19, 20, 22, 28, 30, 31, and 32. For a minor: 12 hours above Freshman courses.

Languages other than English.—Of all students: In view of the fact that many high-school students, although thoroughly prepared in general subjects for their college work, are, nevertheless, deficient in foreign-language study, the requirements in foreign languages are stated in terms that include the quantity equivalent of both high-school and college work.

If the student entered with less than two units' credit in one foreign language, 30 hours, to be taken in any two languages (Greek, Latin, French, German, Spanish), are required for graduation.

If he entered with two units' credit in any one foreign language (ancient or modern), the requirement is 24 hours.

If he entered with four units' credit in Latin, or two units' credit in each of two foreign languages, the requirement is 12 hours.

At least six hours above beginning courses, however, must be taken in each of two languages (with the exception noted below, under Ancient Languages), and any language begun in college must be continued throughout the second year's work in that language in order to count toward the fulfilment of the foreign-language requirement.

The total number of hours required for graduation is neither increased nor diminished by the manner in which the student satisfies the foreign-language requirement.

If no units of foreign language were accepted for entrance, at least one language must be begun in the Freshman year, and a second language must be begun not later than the Sophomore year, lest the student find it impossible to complete his college course within four years.

If only the first-year work in a modern language was accepted for entrance, the total requirement is not reduced, and Freshman Courses 1 and 2 in the same language must be taken, and when completed, full credit for the year will be given.

If two years' work in one modern language was accepted for entrance, Sophomore Courses 4 and 5 in the same language may be taken in the Freshman year; or the Sophomore courses may be postponed until the Sophomore year, though not later; and, if postponed, Freshman Courses 1 and 2 in another language (Greek or modern) must be taken in the Freshman year.

If four years' work in Latin was accepted for entrance, the student is advised to continue his study of Latin in college.

Credit for Course 1 in any language is confirmed only when credit has been earned in Course 2 in the same language.

Ancient languages: The six hours of advanced study in each of two foreign languages required for graduation, may, if desired, be taken wholly or in part in Greek and Latin; or, twelve hours taken wholly in Latin (Courses 1, 2, 3, and 4), will be accepted as fulfilling the graduation requirement in foreign languages. The student that expects to study theology is advised to major in Greek. The student that expects to study medicine is advised to elect at least six hours in Greek in addition to his work in other languages. FOR THE MAJOR SEQUENCE: 24 hours in Greek, including Greek 1 and 2; or 18 hours in Latin, in addition to the minimum language requirement for graduation. FOR A MINOR: 18 hours in Greek, including Greek 1 and 2; or 12 hours in Latin.

Modern Languages: The six hours of advanced study in each of two foreign languages required for graduation may, if desired, be taken wholly or in part in the modern languages. The student that expects to study medicine, or other scientific subjects, or to study for a Ph.D. degree, is advised to study French and German. The student that expects to enter commercial or diplomatic service is advised to study French or Spanish. FOR THE MAJOR SEQUENCE: 24 hours in French, or 24 hours in German, or 24 hours in Spanish, including Courses 1 and 2 in the language elected, in addition to the minimum language requirement for graduation. FOR A MINOR: 18 hours in French, or 18 hours in German, or 18 hours in Spanish, including Courses 1 and 2 in the language elected.

Mathematics.—OF ALL STUDENTS: 3 hours, Course 2; or, if plane trigonometry was accepted for entrance credit, Course 4 or 9. The student that expects to study any branch of engineering is advised to major in mathematics and to minor in physics. FOR THE MAJOR SEQUENCE: 21 hours, including Course 2. FOR A MINOR: 12 hours above Freshman courses.

Natural Sciences.—Of all students: 12 hours, divided equally between any two of the three departments, Biology, Chemistry, and Physics. The student that expects to study medicine is advised to major in one of the natural sciences and to minor in another, and to take at least some of his free elective hours in the third. The student that expects to study any branch of engineering is advised to minor in physics. For the major sequence: 18 hours in biology, or 18 hours in chemistry above Freshman courses in the subject elected, in addition to any hours taken to satisfy the minimum requirement for graduation. For a minor: 12 hours in biology, or 12 hours in chemistry, or 12 hours in physics, above Freshman courses in the subject elected.

Philosophy.—Of all students: 6 hours, Courses 3 and 4.

Physical Training.—Of all students: 4 hours.

Political and Social Sciences.—Of all students: No specific requirement, except that Courses 10 and 11 may be substituted for the six hours of history required of all students. The student that expects to study law, or allied subjects, is advised to major in the social sciences. For the major sequence: 24 hours, including the required six hours of history. For a minor: 12 hours.

Psychology.—Of all students: 6 hours, Courses 1 and 12. For the major sequence: 24 hours, including Courses 1, 6, 12, 14, and 18. For a minor: 12 hours.

THE COURSES IN DETAIL

The Liberal Arts Course; Bachelor of Arts with Major in any Department.—For the most satisfactory course of preparation for business or for entering any graduate school of commerce, journalism, engineering, theology, law, medicine, or any other profession, or for general culture, the student is recommended to take the four years' Liberal Arts course as outlined below. The training courses described in the following pages are but variations of the Liberal Arts course, for they all contain the same basic requirements for the Bachelor of Arts degree, plus the major sequences specified for the respective courses.

Freshman Year: Required—Bible 1 (3 hours, either semester); English 2 and 3 (6 hours); ancient or modern languages, 6 or 12 hours (consult the paragraphs explaining the graduation requirements in detail); Mathematics 2 (3 hours, either semester; if plane trigonometry was accepted for entrance, substitute Mathematics 4 in either the Freshman or Sophomore year, or Mathematics 9 [3 hours] in the Junior year); natural sciences, 6 or 12 hours; and Physical Training 1 and 2 (2 hours). Total, 32 hours.

Freshmen may not carry more than sixteen credit hours' work a semester.

Either two courses in the foreign languages and one course in science, or one course in foreign language and two courses in the sciences, are taken in the Freshman year.

Sophomore Year: Required—Bible 23, 6, 22, or 35 (3 hours, either semester; English 1 (3 hours, either semester); History 4 and 5, or 14 and 9, or 12 and 13 (6 hours); ancient or modern languages, 6 or 12 hours, as may be needed to complete graduation requirements; natural science, 6 hours, unless completed in the Freshman year; Physical Training 3 and 4 (2 hours). Elective—Any courses open to Sophomores, 6 hours. Total, 32 hours.

Election of Major and Minor Subjects.—By the end of his Sophomore year, the student shall notify the Registrar, in writing, as to the subject in which he elects to pursue his major requirements. The major subject should be chosen with reference to the student's probable life-work. The major subject consists of not fewer than eighteen semester hours of elective courses taken entirely in one subject, above the courses listed as Freshman courses. A minor subject consists of twelve semester hours in courses, either required or elective, above those listed as Freshman courses, taken in any subject except the one taken as the major. Two minors, one of which shall be prescribed by the head of the department in which the major subject is elected, are required for graduation. Courses passed with a grade of D may not be counted in the satisfaction of major and minor requirements. These three groups of the major and two minor subjects constitute the principal requirements of the Junior and Senior years.

Students electing to major in home economics follow the sequence of courses prescribed for that subject, beginning in the Freshman year, instead of following the procedure for Sophomores described above.

Junior and Senior Years: The strict enforcement of the curriculum requirements of the Freshman and Sophomore years enables the student in his Junior and Senior years to enjoy the fullest possible range of election of courses. Psychology 1 and 12 (6 hours) must be taken in the Junior year, and Philosophy 3 and 4 (6 hours) must be taken in either the Junior or Senior year. The four hours required in Bible may be taken in the Junior year, or divided between the two years. The student's major and minor subjects will complete the list of required courses. Total, including electives, each year, 30 to 36 hours.

The Training Course in English Bible and Religious Education; Bachelor of Arts with Major in Religious Education.—The department of Bible and Religious Education has, through the generosity of a friend of Maryville College and of Christian education, been enabled greatly to expand and enrich the course of instruction and training heretofore contained in the curriculum of the Bible Training department on the John C.

Martin Foundation. For the benefit of students interested in Religious Education, thirty semester hours of work in Religious Education is offered by the department, in addition to twenty-one hours in English Bible. In addition, therefore, to providing thorough courses in Bible study for all the students, the department offers exceptional advantages for young men and young women wishing to prepare themselves for Christian service as directors of religious education, Sabbath-school workers, pastors' assistants, mission workers, or Bible readers; or to prepare themselves for graduate study in religious education.

For the most satisfactory course of preparation, the student is recommended to take the four years' Liberal Arts course as outlined above, including among his major, minor, and elective subjects all the courses offered in English Bible and Religious Education. Upon the completion of the course he will be graduated from the College with the degree of Bachelor of Arts with major in Religious Education.

The Training Course for Teachers' Certificates; Bachelor of Arts, with Major in the subject the candidate desires to teach.—A large percentage of the graduates and undergraduates of Maryville College become teachers. They are found in all sections of the United States, especially in the Southern Appalachian region, in the South and Southwest, and are employed in elementary schools, high schools, and colleges.

The instructors in the various departments of the College endeavor to conduct their work in such a way as to help train teachers, both by the thoroughness of the instruction given in the various branches, and by the object lesson of the methods employed in the classroom. Competent teachers selected from many colleges and universities bring the best methods of those schools to their work at Maryville. The teachers trained at Maryville rank high in sound scholarship and practical pedagogy.

For Teaching in Tennessee.—For the only course of preparation fully qualifying for the permanent professional certificate issued by the State Department of Education, licensing the holder to teach in any county high school within the State, the student must take the four years' Liberal Arts course, graduating from the College with the degree of Bachelor of Arts. He may elect his major and minors in any subjects, but must include in his course at least eighteen semester hours in psychology and education. The certificate referred to will specify the subjects the holder is entitled to teach, and will include only those subjects in which the holder has a credit of at least twelve semester hours.

The State Department of Education also issues three kinds of certificates to undergraduates: (1) A permanent professional (elementary) certificate to those that have completed at least two years of college work, including at least twelve semester hours in education. This certificate permits the holder to teach in any elementary school within the State. (2) A professional (high-school) certificate to those that have completed

at least two years of college work, including at least twelve semester hours in education. This certificate permits the holder to teach in any two-year high school within the State, during a period of four years. (3) A professional (elementary) certificate to those that have completed at least one year of college work including at least six semester hours in methods and management of elementary schools. This certificate permits the holder to teach in any elementary school within the State during a period of four years.

For Teaching in Other States.—A student can meet the requirements for teachers' certificates issued in other States, also, but, since those requirements vary in the different States, he should obtain official information from the Department of Education of the State in which he expects to teach, in ample time to take any special subject that may be required by that State.

Applications for State Professional Certificates.—Following the student's graduation or upon his having completed a sufficient number of courses, the Registrar will, upon request, forward the student's application for a professional certificate to the State Department of Education. All State Departments of Education now require the filling out of special application blanks of their own before a professional certificate will be issued. The College, therefore, requires the prepayment of a clerical fee of one dollar for the filling out of each such blank. The State Department of Education of Tennessee also requires a licensing fee of two dollars, which must accompany the application for a certificate. Applicants requesting the College to send their credits direct to Nashville should see to it that both fees accompany their request. The Registrar will then forward the State fee with the application blank, provided the applicant sends the State fee to him in the form of a check, or money-order, drawn to the order of the State Supervisor of Certification, and separate from the one-dollar clerical fee. The College will not, however, be responsible for the forwarding of currency.

The Teacher-training Course in Vocational Home Economics; Bachelor of Arts with Major in Home Economics.— The liberality of an anonymous donor, who contributed the Mary Esther Memorial Endowment Fund, made it possible in 1913 for the College to add a Home Economics department to the privileges already afforded its students, and also to house the department in Fayerweather hall.

For a course in vocational teacher training, qualifying for teaching home economics in accredited, four-year high schools, the full four years' course, as outlined below, must be taken. Upon completing the course, the student will be graduated from the College with the degree of Bachelor of Arts, and will be recommended to the State Department of Education for a

permanent professional certificate, authorizing the holder to teach home economics in any high school in the State.

Young women majoring in other departments, who may desire to know the application of home economics to the home, may take as elective work, the general courses in home economics for which they may have the prerequisites.

Freshman Year: Bible 1 (3 hours, second semester); English 2 and 3 (6 hours); ancient or modern language, 6 hours (if elementary, must be continued through the second year of the same language); Chemistry 1 and 2 (6 hours); Home Economics 16, 20, and 31 (9 hours); and Physical Training 1 and 2 (2 hours). Total, 32 hours.

Sophomore Year: Bible 23, 6, 22, or 35 (3 hours, either semester); English 1 (3 hours, either semester); History 4 and 5, or 14 and 9, or 12 and 13 (6 hours); ancient or modern language, 6 hours (if elementary, must be continued through the second year of the same language); Chemistry 11 and 12 (6 hours); Home Economics 17 and 18 (6 hours); and Physical Training 3 and 4 (2 hours). Total, 32 hours.

Junior Year: Bible, any advanced course (2 hours, first semester); Mathematics 2 (3 hours, either semester); ancient or modern language continued, unless the foreign-language requirement has been met, 6 hours, or Education, 6 hours; Psychology 1 and 12 (6 hours); Biology 14 (3 hours); and Home Economics 19 and 32 (6 hours). Total, including minor subjects, 30 to 36 hours.

Senior Year: Bible, any advanced course (2 hours, second semester); Philosophy 3 and 4 (6 hours); Social Science 1 or 2 (2 hours, either semester); Biology 16 (3 hours); and Home Economics 22, 28, and 30 (7 hours). Total, including minor subjects, 30 to 36 hours.

The Pre-Medical Course; Bachelor of Arts with Major in Chemistry or Biology, or Two-Year Course without Degree.—The Degree Course.—For the most satisfactory course of preparation the student is recommended to take the full four years' Liberal Arts course, majoring in chemistry or biology, and graduating from the College with the degree of Bachelor of Arts. He will then be able to meet the highest requirements for admission to any medical school.

The Non-degree Course.—For the benefit, however, of students preparing to study medicine but unable first to complete the full four years' college course leading to a degree the College provides a special course covering those college studies specified as the minimum requirement for entrance to medical schools of Class A standard, as classified by the American Medical Association. On account of the fact that many medical schools now maintain entrance requirements higher than this minimum, the

student should acquaint himself with the requirements of the medical school that he expects to enter. The requirements for admission to the Freshman class in the two-year Pre-medical course are the same as for admission to the Freshman class in the Liberal Arts course.

The course of study may be completed within two years, during which time sixty-four semester hours of work, including the four hours of physical training, must be taken from the courses listed in the following synopsis of courses meeting the requirements of the American Medical Association:

Freshman Year: Required—Chemistry 1 and 2 (6 hours); Biology 14 and 15 (6 hours); English 2 and 3 (6 hours); Bible 1 (3 hours); Mathematics 2 (3 hours; mathematics need not be taken if plane trigonometry was accepted for entrance); French 1 and 2 or German 1 and 2 (6 hours); and Physical Training 1 and 2 (2 hours). Total, 32 hours.

Sophomore Year: Required—Chemistry 3 and 7 (6 hours); Biology 1, 2, 9, 10, 11, 16, or 19 (3 hours; or 2 hours if one unit of biology was accepted for entrance); Physics 6, 7, 8, or 9 (9 hours; or 6 hours if one unit of physics was accepted for entrance); Bible, 23, 22, 35, or 6 (3 hours); other non-science subjects, 6 hours; Physical Training 3 and 4 (2 hours). Elective—Any science or non-science courses open to Sophomores, 3 to 7 hours. Total, 32 hours.

A student completing the Pre-medical course will be certified to the medical school that he may wish to enter.

REQUIRED AND PERMITTED HOURS

The normal schedule of studies for all students is fifteen recitation hours a week, exclusive of the physical-training hours required of Freshmen and Sophomores. More than this amount is not permitted so long as the student is in the Freshman class. The Committee on Entrance and Advanced Standing may restrict any student to a smaller number of hours, if his grades in high school or college indicate that such restriction is advisable.

The number of hours that may be carried during any semester subsequent to the Freshman year will depend upon the student's grades earned during the preceding semester. If the average grade falls below D, not over twelve hours may be carried; with averages of D or C, fifteen hours; with an average higher than C, eighteen hours; and with averages of B or higher, twenty hours.

No student shall receive more than forty semester hours' credit for one year's work, nor shall he be permitted to carry work that, if credited, would amount to more than an average of twenty hours a semester for the year. This includes credits earned in the department of Expression, in debating, and in the editing of The Highland Echo.

GRADES AND QUALITY CREDITS

Grades and quality credits are recorded as follows: A, excellent, three quality credits for each semester hour of the course; B, good, two quality credits; C, medium, one quality credit; D, passing, and acceptable for graduation, but not entitling to quality credit; E, condition, which may be changed to D only upon reexamination at the close of the following semester, and which becomes F if the second examination is not then taken; F, failure, requiring that the course be taken again before credit can be allowed; I, incomplete, which will be changed to F if the work is not completed within one semester.

Students who at the end of any semester have not earned at least nine hours of credit, exclusive of physical-training credit or expression credit, during that semester, automatically forfeit their connection with the College, unless for satisfactory reasons they are reinstated by vote of the Faculty.

Absences for any cause, totaling 25 per cent of the course in which the absences are incurred, debar the student from receiving any grade higher than D; or totaling 50 per cent, debar from examination in that course.

PROMOTION SCALE

The expectation in the case of an average student is that he shall complete at least thirty semester hours of quantity credits, exclusive of physical-training requirements, together with an equal number of quality credits, during each college year. To allow for reasonable variations, however, promotion in September from one classification to the next higher classification is permitted upon the following minimum basis:

Freshman to Sophomore: the student shall have twenty-three quantity credits. A student not eligible for promotion after two years in any class will not be readmitted to college.

Sophomore to Junior: the student shall have fifty-five quantity credits, plus forty quality credits.

Junior to Senior: the student shall be within thirty-three quantity credits of completing his graduation requirements, and have ninety quality credits; except that, if he has one hundred and twenty quality credits, he may be admitted with thirty-six hours to complete; or, if he has one hundred and sixty quality credits, he may be admitted with forty semester hours to complete.

Senior privileges are accorded only to members of the graduating class.

Seniors are given an examination in the fundamentals of English composition at the beginning of the Senior year, and are not admitted to candidacy for graduation until this examination is passed. This examination may be taken again at the beginning of the second semester by those who failed in the first examination.

GRADUATION HONORS

The distinction of MAGNA CUM LAUDE is conferred upon such members of the graduating class as shall have maintained, during eight semesters of residence study in Maryville College, an average of B, plus ninety quality credits. In ordinary instances this is a minimum of 334 quality credits.

The distinction of CUM LAUDE is conferred upon such members of the graduating class as shall have maintained, during eight semesters, at least four of which shall have been in residence study in Maryville College, an average of B. In ordinary instances this is a minimum of 244 quality credits.

CERTIFICATES OF CREDIT

Graduates and undergraduates that have left college in good standing may, if they so desire, receive an official statement of their credits, upon application to the Registrar. No charge is made for the first certificate when issued in the form adopted by the College. For duplicates and for the filling out of special blanks, prepayment of one dollar is required for each blank. For fuller information regarding the obtaining of teaching certificates, consult the paragraphs describing the Training Course for Teachers' Certificates.

RECOMMENDATIONS

The College endeavors to help its graduates to secure positions as teachers, and seeks to promote those that are now teaching. Any graduate of the College may register with the Committee on Recommendations, to whom all correspondence on this subject should be addressed. The Committee's recommendations are confidential and under no circumstances are they shown to the candidates. General letters of recommendation are not ordinarily given. Superintendents, principals, school officials, and others in need of teachers are invited to report vacancies, stating salary, character of work, and the like, and suitable teachers will be recommended, and their records forwarded for inspection. No charges are made to either party for the services of the Committee.

DEPARTMENTS OF INSTRUCTION

NOTE: The courses in each department are numbered consecutively, beginning with 1. The omission of a number indicates that a course has been discontinued. New courses receive new numbers and are inserted in the description of courses in the curriculum year to which they belong.

BIBLE AND RELIGIOUS EDUCATION

PROFESSORS ORR AND RODGERS, AND ASSOCIATE PROFESSOR KIGER

English Bible

1. Life of Christ. The study of the life of Christ is based on a harmony of the Gospels. A rapid review of the period between the Testaments is made, and the principal characteristics of each of the four Gospels are studied. Text-books, Robertson's Harmony of the Gospels and a Dictionary of the Bible. Required of Freshmen; three hours, first semester; repeated second semester for those who take Mathematics 2 during first semester.

23. Genesis to Ruth. A survey of the patriarchal and tribal periods of Old Testament history, with special emphasis upon the teaching values of the narratives. The geography of Palestine, also, is studied. The object of the course is, in addition to the mastery of the subject-matter, to develop systematic habits and methods of Bible study. Text-books, the Bible (R.V.) and Davis' A Dictionary of the Bible. Required of Sophomores who do not take Course 6, 22, or 35; three hours, first semester; repeated second semester for those who take English 1 during first semester.

4, 24. Old Testament History. A continuation of Course 23, beginning with I Samuel. The national development, the conflicts of Judah and Israel, their governments, their subjugation and partial restoration, the character of their leaders and their influence upon their contemporaries, are studied. The influences of surrounding nations upon the political and religious conditions of Israel are emphasized. Text-books, same as in Course 23. Elective for students who have completed Course 23; two hours, each semester.

6. The Apostolic Church. A historical study of the early church based on the Acts and Epistles. Text-books, the New Testament (R. V.) and Gilbert's A Short History of Christianity in the Apostolic Age. Required of Sophomores who do not take Course 22, 23, or 35; three hours, first semester; repeated second semester for those who take English 1 during first semester.

7, 27. A Bird's-eye View of the Bible. This course brings the entire Bible before the student in rapid review. The Old Testament is covered in the first semester, and the New Testament in the second semester. Text-books, Robertson's The Old Testament and Its Contents and McClymont's

The New Testament and Its Writers. Elective for Juniors and Seniors; two hours, each semester.

8. Poets of Palestine. An outline study of Job, Proverbs, Ecclesiastes, Song of Solomon, selected Psalms, and Lamentations. Introductory lectures on Hebrew poetry and wisdom literature. Portions of the books are studied in detail and their relation to other sacred literature and their importance in Christian experience are emphasized. No commentaries are used as text-books, but required readings are assigned. Elective for Juniors and Seniors; two hours, first semester.

9. Prophets of Palestine. A study of the rise and development of Old Testament prophecy. The prophets are studied chronologically in the light of contemporaneous history, and the contribution of each to the life and religion of his day is emphasized. Suitable commentaries are used, and a special study is made of some phase of prophecy, or of the work of some one prophet. Elective for Juniors and Seniors; two hours, second semester.

Religious Education

22. Principles of Religious Education. A general survey of the field of religious education. Study of religious values and current theories regarding (a) human nature, (b) the aims of religious education, (c) the means of religious education, (d) leadership. Bearings of the most important findings in these fields upon religious educative processes. Required of Sophomores who do not take Course 6, 23, or 35; three hours, first semester.

35. Group Discussions on the Teachings of Jesus. The principles and methods of group discussion are studied, and the discussion method is considered as a possible process in religious education for securing democratic participation in the decisions and affairs of life. The class is conducted as a discussion group, and the teachings of Jesus form the basis of illustrative discussions. Preparation and criticism of discussion outlines are secured for the purpose of developing skill in the method. Required of Sophomores who do not take Course 6, 22, or 23; three hours, second semester.

21. Curriculum of Religious Education. A study of the historical background of religious curriculum; examination of the theory and principles that underlie curriculum making; examination and evaluation of current curriculum materials; and practice in selection and creation of curricula adapted to the needs of the different age groups. Elective for students who have had two three-hour Bible courses; three hours, first semester.

25. Organization and Administration of Religious Education. Methods of organization and administration in the community, and in the local church, to meet the needs of childhood, youth, and adult life. Practical consideration of the making and administration of a program, of selecting and supervising teachers, of organizing group leadership, of pupil administration, and of lesson selection for Sabbath schools and for week-day schools. Observation and criticism of methods actually in use required. Elective for

students who have had two three-hour Bible courses; two hours, second semester.

29. Elementary Method. Method in teaching religion as applied to the elementary grades. A study of the needs of the child; of methods of teaching; and of suitable lesson materials. The technique of teaching as applied to the classroom is emphasized. Methods and materials actually in use are observed and discussed. Elective for Juniors and Seniors; Sophomores by permission; two hours, first semester.

30. Secondary Method. Method in teaching religion as applied to secondary grades. Principles of teaching are reviewed in the light of the nature and needs of the adolescent group, and application is made to the selection of subject-matter and activities. Attention is given to the technique of classroom procedure and to the special problems arising in the field of young people's work. Elective for Juniors and Seniors; Sophomores by permission; two hours, second semester.

31. Use of the Bible in Religious Education. Study of the Bible from the standpoint of the teaching value of its different parts as related to the needs, interests, and capacities of different age groups. Principles that should guide in the selection and use of biblical materials for different ages are discussed, and practice in the selection and use of materials is secured. Elective for students who have had two three-hour Bible courses; three hours, second semester.

32. Christianity in America. A historical study of organized Christianity in the United States, and of the part the Church has had in the development of our national life. The course emphasizes Christianity at work in shaping ideals and institutions in America, and considers the present condition and prospects of American Protestantism. Elective for students who have had two three-hour Bible courses; three hours, second semester.

33. History of Religion and Christian Missions. The course includes (1) a rapid historical survey of the ethnic religions, the founders and their teachings, with the purpose of setting Christianity among them for comparison; (2) a study of the modern missionary enterprise of Christianity, and the present general aspects of missionary work in the East. Elective for students who have had two three-hour Bible courses; three hours, first semester.

19. Method in Teaching Religion: Religious Pedagogy. A discussion of the principles of method in religious teaching, and the application of those principles to classroom procedure. The problems arising in the field of religious teaching are studied in the light of approved principles of pedagogy. Identical with Education 19. Elective for Juniors and Seniors; two hours, first semester.

28. The Psychology of Religious Development. A study of the nature and needs of children and adolescents, and of the way religion functions in

developing life. The purpose is to acquaint the student with characteristics of habits, attitude, and intelligence, and with the place of these characteristics in the determination of method and program in the religious education of different age groups. Elective for Juniors and Seniors; two hours, first semester.

34. Psychology of Religion. An introduction to the psychology of religion. Some of the major problems of religious experience and the methods of their treatment. The background of the problem of the psychology of religion; the major factors in religious experience; the genesis and growth of religious experience; the nature, the function, and the elements of worship; the psychological aspects of certain religious beliefs and the central elements of a working faith. Elective for Juniors and Seniors; three hours, second semester.

EDUCATION

DEAN BARNES, MISS GAMBLE, MISS KELLER, AND OTHER TEACHERS AS LISTED

13. School Management. A study of school organization; the history of discipline; the social and psychological aspects of discipline; punishment; student government; habit formation; educational values. Elective for Sophomores; three hours, each semester.—MISS MCREYNOLDS.

27. History of Education in the United States. The course includes the origin and development of American educational institutions, the European background, the evolution of tax-supported schools, and the modern educational conceptions and expansion. Elective for Sophomores; three hours, first semester.—MISS BASSETT.

28. Introduction to Education. A general introductory survey course in Education, including plans for the organization of public education; the general nature of the learning and teaching processes; problems of rural education; problems of educational finance; other outstanding problems of present-day educational work. Elective for Sophomores; three hours, second semester.—MISS BASSETT.

35. Supervision of Study in the High School. This course attempts, by means of text-book, outside readings, class discussions, and lectures, to teach: (1) the principles of effective study; and (2) some methods of securing that kind of study from high-school students, through supervision of study. Text-book, Thomas' Training for Effective Study. Elective for Sophomores; three hours, each semester.—MISS KELLER.

32. Principles of Secondary Education. A study of the development of the American high school; equipment of high-school teachers; mental equipment of pupils; vocational guidance; elimination of waste; the junior high school; the junior college; objectives of secondary education; the reorganization of subject matter. Elective for Juniors and Seniors; three hours, first semester.—MISS GAMBLE.

33. Methods of Teaching in High School. A study of the aims of the high school; discipline; questioning; assignments; supervised study; lec-

tures; laboratory methods; socialized class procedure; projects; examinations; marking systems; and the like. In addition, each student is expected to do reading on the methods that may be used in the teaching of a particular high-school study, and to make a number of lesson plans for that study. Elective for Juniors and Seniors; three hours, first semester.—Miss Gamble.

3. History of Education. A study of the educational systems of early China, Greece, and Rome; the history of Christian education; the rise of the universities; the Renaissance; and the educators of the sixteenth, seventeenth, eighteenth, and nineteenth centuries. A careful study is made of such modern educators as Rousseau, Pestalozzi, Froebel, Herbart, and Horace Mann. The last part of the course is devoted to the comparison of the school systems of Germany, France, England, and the United States. Text-book, Cubberley's History of Education. Elective for Juniors and Seniors; three hours, second semester.—Miss Gamble.

4. Child Study. Problems, methods, and data in the physical and mental growth of children and youth from the kindergarten to the university. The course is developed with special reference to the dynamic conception of human behavior and mental growth as a function of sensori-motor co-ordination. From this point of view the nature and needs of the child are discussed with special emphasis upon attention, perception, interest, habit, and will. The course is designed to show the application of psychological laws and principles to educational theory and practice. Elective for Juniors and Seniors; three hours, first semester.—Dean Barnes.

36. Comparative Education. A study of the school systems, administration, organization, and methods of the elementary, intermediate, and secondary schools of England, France, Germany, and the United States. Elective for Juniors and Seniors; three hours, second semester.—Dean Barnes.

37. Philosophy of Education. A study of the main schools of philosophy and their influence on education as a background for the interpretation of a philosophy of education in a democracy. Elective for Juniors and Seniors; three hours, second semester.—Miss Gamble.

15. Educational Administration. An introductory study in the field of public-school administration. Surveys of State, county, city, and district organization; the functions of supervisory and administrative officers; school finance, buildings, and equipment; compulsory attendance, and the grouping of children for instructional purposes; training, selection, tenure, and pay of teachers. Text-books, Cubberley's Public School Administration and Cubberley's State and County Educational Reorganization. Elective for Seniors; three hours, first semester.—Miss McReynolds.

16. Measurement and Experimental Education. A study of the standards, methods, and scales for the measurement of educational achievements, together with their application to teaching and supervision; also, a study of

the essentials of experimental and statistical technique. Elective for Seniors; three hours, second semester.—Miss Gamble.

38. Measurement of Intelligence. The aim of the first half of the course is to give an account of all the important types of mental tests, a critical survey of the field, with emphasis on the critique and significance of mental tests for the measurement of intelligence in relation to the educational problem of retardation and difference due to special abilities and age. A study of methods, results, applications, and theory. During the second half of the semester, practice testing is afforded all members of the class. Laboratory practice, four hours a week; lecture or quiz, one hour. Elective for Seniors; three hours credit, first semester.—Dean Barnes.

22. Elementary Educational Psychology. Identical with Psychology 17.

8. Educational Psychology. Identical with Psychology 5.

7. The Teaching of Latin in the Secondary School. Identical with Latin 10.—Miss Bassett.

9. History of Mathematics. Identical with Mathematics 13.—Professor Knapp.

10, 11. Coaching and the Teaching of Athletics. Identical with Physical Training 10 and 11.—Professor Honaker.

19. Religious Pedagogy. Identical with Bible 19.—Professor Orr.

21. The Teaching of English in the Secondary School. Identical with English 21.—Professor Hunter.

24, 25. Practice Teaching in Home Economics, and Special Methods of Teaching Home Economics. Identical with Home Economics 34 and 32, respectively.—Miss Meiselwitz.

30. Educational Sociology. Identical with Social Science 22.—Professor McMurray.

31. The Teaching of French in the Secondary School. Identical with French 13.—Miss Wilkinson.

ENGLISH LANGUAGE AND LITERATURE

Professor Hunter, Mrs. Alexander, Miss Heron, Miss McReynolds, Miss Clemens, and Mr. Queener

Language

2, 3. Rhetoric.* A preliminary study of the fundamentals of usage, followed by a study of the principles of style, and a study of the forms of prose discourse. Frequent written exercises in connection with the principles as they arise. Text-books, Grose's College Composition and Wooley

*Students who are found deficient in preparation for English 2 will be assigned to special sections where they may make up their deficiencies. No credit is given for this special work.

and Scott's College Handbook of Composition, together with a review grammar. Required of Freshmen; three hours, each semester.

1. Systematic Discourse. The preparation and use of outlines. Instruction in the method of ordering the materials of discourse. Preparation of fifteen outlines by each student. Development into complete discourses of at least four of these outlines and their delivery before the class by each student. In this connection much stress is laid on the fundamentals of effective delivery. Required of Sophomores; three hours, first semester; repeated second semester for those who take Bible during first semester.

15. Argumentation and Debate. The first few weeks given to the theory of debate; the remainder of first semester given to intensive study of the intercollegiate debate propositions for the year. Frequent practice in speaking upon the issues involved in these propositions. Members of college debate teams are chosen from this class at the end of the first semester on combined basis of class record and of individual performance in a debate before a committee of judges. Two special sections of this class are conducted: one for students particularly interested in oratory; and one for Freshmen. Students who, after two years in any one of the divisions of this class, are not selected to speak in intercollegiate competition, are not permitted to enroll in the class the third year. One hour, first semester, for those electing the course; and one hour, second semester, for those selected for the college teams.

18, 19. An Introduction to the Study of Language. A study of the history and relationships of the English language. Studies dealing with the processes of growth and change characteristic of language. Text-books, Greenough and Kittredge's Words and Their Ways in English Speech and Krapp's Modern English. Elective for Juniors and Seniors; three hours, each semester.

20. Advanced Composition. A course designed to investigate the materials and technique of the shorter forms of prose literature. Special attention is given to the short story and the informal essay. Students are given a great degree of freedom in selecting subject-matter and form for their work. At least six acceptable pieces of work are required of each member of the class. Elective for Juniors and Seniors; three hours, second semester.

21. The Teaching of English in the Secondary School. Consideration of the problems connected with high-school English teaching. Various theories of English teaching are studied and careful attention is given to the building of the four-year English curriculum for the high school. Text-book, Thomas' The Teaching of English in the Secondary School. Identical with Education 21. Elective for Juniors and Seniors; two hours, second semester.

Literature

5, 6. English Literature. A survey of the entire field of English literature from its beginning to the death of Victoria. The development of the literature from period to period is carefully noted, and the lives, works, and characteristics of the more prominent authors are studied and criticised. Text-book, Cross and Goode's Readings in the Literature of England. Elective for Sophomores; three hours, each semester.

4. American Literature. Two weeks are devoted to Colonial literature. The rest of the time is given to a careful study of the works of the leading American poets and prose writers of the nineteenth century. Text-book, Shafer's American Literature, supplemented by library work. Elective for Sophomores; two hours, first semester.

16. American Literature since 1870. Text-books, Pattee's History of American Literature since 1870, and Readings in American Literature since 1870. Elective for Sophomores; two hours, second semester.

17. Studies of Contemporary Drama. A study of the drama produced in England and Europe since Ibsen began to write. Among the plays considered are those of Ibsen, Björnsen, Hauptmann, Tchekhof, Phillips, Shaw, Galsworthy, Rostand, Yeats, Synge, and Maeterlinck. Elective for Juniors and Seniors; two hours, first semester.

11, 31. Development of English Poetry. An introductory study of the technique of the art of verse. The forms of English poetry are studied. The object of the course is to increase the enjoyment and appreciation of poetry by insight into the methods of the poets and by acquaintance with the best examples of their art. Text-book, Zeitlin and Rinaker's Types of Poetry. Elective for Sophomores; two hours, each semester.

7, 27. Nineteenth Century Prose. A study of representative prose writers, with especial attention to the development of the essay and of prose fiction. The work is based on typical essays of Lamb, Macaulay, Carlyle, Ruskin, Stevenson, and Arnold; and representative fiction by Jane Austen, Charlotte Bronté, George Eliot, Thackeray, Meredith, and Kipling. Elective for Juniors and Seniors; two hours, each semester.

8, 28. Shakespeare. A chronological study of Shakespeare, noting the development of his poetic art; with introductory lectures on the evolution of the drama, and on the contemporaries of Shakespeare. The work of the first semester includes the early comedies, the chronicle plays, and the masterpieces in comedy. The work of the second semester includes the chief tragedies and the Roman plays. Text-book, Brooke, Cunliffe, and MacCracken's Shakespeare's Principal Plays. Elective for Juniors and Seniors; three hours, each semester.

9. Robert Browning. A detailed study of his early poems. Some time given to consideration of "The Ring and the Book" and the dramas. Elective for Seniors; two hours, second semester.

23. Middle English Literature. A rapid survey of the literary types and interests of England from 1150 to 1400 occupies the first six or seven weeks; following this an intensive reading and discussion of Chaucer's Canterbury Tales. The more difficult selections are read in modernizations. Prerequisite, English 5. Elective for Juniors and Seniors; three hours, first semester.

30. The Development of the American Short Story. A study of the development of short fiction in America from Washington Irving to the present, with attention also to the reflections in this development of the changes in public taste and opinion. A careful reading of some eighty stories in chronological sequence supplements the text-book and classroom discussion. Text-books, Pattee's Development of the American Short Story and Jessup's American Short Stories. Elective for Juniors and Seniors; three hours, first semester.

HISTORY

Miss Jewell, Mr. Queener, and Miss Bassett

4, 5. American History. A summary of important events in the history of the United States from the earliest beginnings to the present time, including a careful study of the causes, events, and results of the World war. Special attention is given to social and economic phases. Text-book, Hackett and Schlesinger's A Political and Social History of the United States. Supplementary work, assigned reading, drawing of maps illustrative of different historical periods, and reports on current events. Required of Sophomores who do not take Courses 14 and 9 or 12 and 13; three hours, each semester.

14, 9. Medieval and Modern European History. A general course, presupposing study of the subject in high school, and dealing with political, economic, social, and religious events and movements from the decline of the Roman empire to the Era of Metternich. Text-books, first semester, Munro and Santag's The Middle Ages, 395-1500; second semester, Hayes' Political and Social History of Modern Europe, with collateral reading and map work. Required of Sophomores who do not take Courses 4 and 5 or 12 and 13; three hours, each semester.

12, 13. Roman and Greek History. Described under courses given in the department of Ancient Languages. No foreign language requirement. Either semester may be taken independently as an elective, or both may be taken to satisfy the six hours' history requirement. Sophomores; three hours, each semester.

1. Nineteenth Century European History. A study of conditions in Europe as they have developed from the French Revolution. The subjects include the growth of republican ideas in France, the unification of Italy, the establishment of the German Empire, and the World war. Text-book,

Shapiro's Modern and Contemporary History. Elective for Juniors and Seniors; three hours, first semester.

11. Nineteenth Century British History. Four weeks are devoted to a survey of early British history. Special emphasis is then laid upon the development of the empire during the past century. A study is made of British expansion, of the growth of nationalism, and of economic conditions. Attention is also given to the political history of the period. Text-book, Trevelyan's British History in the Nineteenth Century, with collateral reading. Elective for Juniors and Seniors; three hours, second semester.

15. History of Civilization. A constructive study of past and present cultures. Careful consideration is given to the antecedents of modern civilization. The cultures of the Far East are treated "both *per se* and in relation to the West." Text-book, Thorndike's A Short History of Civilization, with collateral reading. Elective for Juniors and Seniors; three hours, first semester.

16. The Southern Frontier. The settlement of the territory south of the Ohio, up to about 1800, with special emphasis on the history of the Tennessee region. No text-book is used, but reading assignments are made. Prerequisites, History 4 and 5. Elective for Juniors and Seniors; two hours, first semester.

17. Tennessee History. A study of State history from 1796 to 1900. No text-book is used, but reading assignments are made. Prerequisites, History 4 and 5. Elective for Juniors and Seniors; two hours, second semester.

HOME ECONOMICS

MISS ELVERA MEISELWITZ, MISS GERTRUDE MEISELWITZ, AND LABORATORY ASSISTANTS

Clothing

16. Textiles and Clothing. History of textile industries; study of the culture and manufacture of fibers; tests for various fibers and judging of cloth; study of the sewing-machine, including the use of all its attachments; the hygiene of clothing; clothing budgets; cotton garment making. Laboratory practice, four hours a week (if home economics was not taken in high school, six hours); lecture, one hour. Freshmen; three hours credit, first semester.

20. Dressmaking. Commercial patterns; drafting of patterns; making of dresses of silk and wool; making of suits. Prerequisite, Home Economics 16. Laboratory practice, four hours a week; lecture, one hour. Freshmen; three hours credit, first semester.

27. Advanced Dressmaking. Tailored coats and suits; steaming and pressing; manipulative technique in tailoring; reproducing commercial and pictorial designs; trimmings; ornaments and decorative stitches for gar-

ments. Research and topical work on construction and fabrics. Prerequisite, Home Economics 20. Laboratory practice, six hours a week. Elective for Juniors; three hours credit, first semester.

Related Art

31. Costume Design. Fundamental principles of costume design; art structure in relation to dress, study of spacing, rhythm, balance, color, and designing for various occasions. History of costume; study of appropriate dress in regard to design, line, and color for individual type. Parallel, Home Economics 16. Laboratory practice, four hours a week; lecture, one hour. Freshmen; three hours credit, first semester.

21. Interior Decoration. The house; development of types; construction; planning an ideal house. History of interior decoration through the ages. Art structure, good spacing, tone relations, and color arrangements, as directly applied to interior decoration. Laboratory practice, four hours a week; lecture, one hour. Elective for Juniors and Seniors; three hours credit, second semester.

Foods

17, 18. Food and Cookery. Study of the production, nutritive value, cost, choice, care, and preparation of food; meal serving; food testing. Prerequisites, Chemistry 1 and 2. Laboratory practice, four hours a week; lecture, one hour. Sophomores; three hours credit, each semester.

19. Dietetics and Cookery. Food requirements of individuals and of groups; relation of cost to nutritive value; planning, preparing, and serving meals; preservation of food. Prerequisites, Home Economics 17 and 18, and Chemistry 11 and 12. Laboratory practice, four hours a week; lecture, one hour. Juniors; three hours credit, first semester.

26. Demonstration Cookery. A training course for county agents and others expecting to do public-service work. History of cookery. Large-quantity serving. Prerequisites, Home Economics 19 and 28. Laboratory practice, four hours a week; lecture, one hour. Seniors; three hours credit, second semester.

33. Survey of Home Economics. Simple food theory and practical home cookery. Food selection, meal planning and serving for the average family. Practice in manipulative skill in cookery. Intended primarily for young women not majoring in home economics. No prerequisite. Laboratory practice, four hours a week; lecture, one hour. Elective for Juniors and Seniors; three hours credit, second semester.

Other Training Courses

32. Methods of Teaching Home Economics. Study of home economics curricula; review of standard text-books; planning of lessons and home projects. Identical with Education 25. Juniors; three hours, second semester.

28. Household Management. Care of the house from attic to cellar; choice of equipment and furnishings; daily routine; business and economics of the household; budget. Seniors; three hours, first semester.

30. Practice House. The application of all the home economics courses previously given, with special attention to the budget and management problems. Students taking this course spend three weeks in the practice house. Seniors; one hour, second semester.

34. Practice Teaching in Foods and Clothing. Identical with Education 24. Prerequisites, Home Economics 19 and 20. Laboratory practice, four hours a week; lecture, one hour. Seniors; three hours credit, first semester.

22. Hygiene. Personal hygiene; public health; first aid; care of the sick; prevention of disease; care of the child. Lectures and quizzes. Seniors; three hours, second semester.

35. Problems in the Selection of Foods and Clothing for Men. The subject includes selection of suitable meals at public places; training for intelligent hostship; the perfect host at formal and informal functions, and functions for men; distinguishing good and poor materials; suitable clothing for individuals and for all occasions. The course is intended primarily for young men students. No prerequisite. Laboratory practice, two hours; lecture, one hour. Elective for Juniors and Seniors; no credit, second semester.

LANGUAGES, ANCIENT

PROFESSOR DAVIS AND MISS BASSETT

Greek

Courses 1, 2, 3, 12, and 13 are taught each year. Of the six courses, 4, 6, 7, 8, 9, and 11, the two courses best suited to the needs of those electing advanced Greek are taught each year.

1, 2. Beginning Greek. The work of the year purposes to secure a mastery of the principal inflections, a careful study of the principles of syntax, and facility in reading and writing easy sentences in Greek. Freshmen; three hours, each semester.

3. Xenophon's Anabasis. Book i, with selections from the later books. The place of the Ten Thousand in Greek History. Continued drill in inflections and syntax. Sophomores; three hours, first semester.

12. Homer's Iliad, Books i-iii, omitting the Catalog of Ships. Mythology and geography are studied as required for the understanding of the text. Special attention is paid to the dialect and to the scansion. Sight-reading. Sophomores; three hours, second semester.

13. Greek History and Culture. A study of the history of Greece from the earliest times to the organization of the Hellenistic states. Special emphasis laid upon the great leaders and thinkers of the past, and the rich heritage of the present. Text-book and library work. No foreign-language

requirement. Identical with History 13. Sophomores; three hours, first semester.

4. Herodotus. Selections from Books vi and vii of Herodotus dealing with the Persian wars. The history of the period and the dialect of Herodotus are studied. Elective for Juniors and Seniors; three hours, first semester.

11. Greek Testament. Studies in the Gospels and the Acts. Westcott and Hort's text is used. Attention is paid to the general characteristics of Hellenistic Greek, and to the New Testament manuscripts and versions. Elective for Juniors and Seniors; three hours, second semester.

6. Plato. The Apology and the Crito, with selections from the Phædo. Lectures and assigned readings on the beginnings and the influence of Greek philosophy. Elective for Juniors and Seniors; three hours, first semester.

7. Tragedy. Æschylus' Seven Against Thebes, or Sophocles' Antigone, with one play from Euripides, either Alcestis or Iphigenia in Tauris. The Greek theater, and its influence in Athenian life. Elective for Juniors and Seniors; three hours, second semester.

9. Oratory. Selections from Lysias. Study of the rise and development of political oratory. Frequent written translations are required. Elective for Juniors and Seniors; three hours, first semester.

8. Comedy. The Frogs, or the Clouds, of Aristophanes. The development of comedy, and its place in Greek literature and Greek life. Elective for Juniors and Seniors; three hours, second semester.

14. Greek Literature in Translation. An outline of Greek literature, with study of masterpieces in translation. No knowledge of the Greek language required. Elective for Juniors and Seniors; three hours, second semester.

Latin

Courses 1, 2, 3, 4, 12, 15, and 16 are taught each year. Of the four courses, 5, 9, 10, and 14, the two courses best suited to the needs of those electing advanced Latin are taught each year.

Students majoring in Latin with a view to teaching are advised to acquire some knowledge of Greek; they are reminded, also, that French and German will be needed by students who do graduate work in the Classics.

15, 16. Cicero and Vergil. Provided for students who enter college with only two or three years' work in Latin. Does not repeat the reading of third-year high-school Latin. Runs throughout the year and should not be divided. A considerable part of the first semester is spent in the study of Cicero; the rest of the year is given to Vergil's Æneid. Much attention is given to study of forms and syntax. Freshmen; three hours, each semester.

1. Livy. Book xxi and selections from Book xxii. Thorough study of the historical setting of Livy's narrative. Special emphasis upon the syntax. Sight-reading. Freshmen; three hours, first semester.

2. Cicero. De Senectute and De Amicitia. Careful study of De Senectute, followed by a rapid reading of De Amicitia. Special attention to the author's thought and style, and to practice in translation. Sight-reading. Freshmen; three hours, second semester.

3. Cicero and Pliny. Selections from the letters of Cicero and Pliny. The letters read are such as illustrate the life, customs, and political history of the times, and the character of the writers. Sight-reading. Prerequisites, Latin 1 and 2. Sophomores; three hours, first semester.

4. Horace. Odes and Epodes. Courses 4 and 5 present a general view of the works of the poet Horace, which are studied from a literary point of view. Special attention to the metrical structure, and thorough drill in scansion. Prerequisites, two of the courses, Latin 1, 2, 3. Sophomores; three hours, second semester.

12. Roman History and Politics. A general survey of Roman history from the earliest period to the time of Justinian. Much attention is given to political and economic development, with comparison of ancient and modern problems of government. No foreign-language requirement. Textbook, Frank's History of Rome, with collateral reading. Identical with History 12. Sophomores; three hours, second semester.

5. Horace and Juvenal. Selections from the Satires and Epistles of Horace, and from the Satires of Juvenal. Origin and development of Roman satire. A continuation of Course 4. Prerequisite, Latin 4. Elective for Juniors and Seniors; three hours, first semester.

9. Tacitus and Seneca. Tacitus' Agricola or Germania, and Seneca's De Vita Beata. The historical setting, structure, and purpose of the Agricola; the characteristics of Silver Latin as illustrated in the style of Tacitus and Seneca. Elective for Juniors and Seniors; three hours, second semester.

10. The Teaching of Latin in the Secondary School. Systematic study of the principles of the language; the most effective methods of teaching First Latin, Cæsar, Cicero, and Vergil; lectures, discussions, papers, and collateral reading. Identical with Education 7. Elective for Juniors and Seniors who have had other college work in Latin; three hours, second semester.

14. Plautus and Terence. Selected plays are read. The place of comedy in Latin literature is considered, as is also its relation to Greek comedy. Elective for Juniors and Seniors; three hours, first semester.

17. Vergil. Selections from Eclogues, Georgics, and Aeneid vii-xii. Study of Vergil's life, work, and influence. Offered in 1930-1931 in observance of the Bimillenium Vergilianum. Elective for Juniors and Seniors; three hours, first semester.

LANGUAGES, MODERN

PROFESSOR HUSSEY, MRS. MINTON, MISS WILKINSON, MR. THROWER, MISS GRIFFES, AND MR. SMITH

French

Courses 1, 2, 4, 5, 7, and 8 are taught each year. Of the four courses 9, 10, 13, and 14, the two courses best suited to the needs of those electing advanced French are taught each year.

1, 2. College Beginning French. The courses consist in a thorough study of the essential features of French grammar, careful practice in pronunciation, composition, conversation, writing of French from dictation, and memorizing of poems, songs, and the like. Text-books, Roux's A First French Course, Spink's Le Beau Pays de France, Guerber's Contes et Légendes, or their equivalent. Freshmen; three hours, each semester.

4, 5. College Second-year French. Review of grammar, syntax, themes, conversation, dictation, memorizing of poems, careful drill on irregular verbs, reading of standard and contemporary authors. Text-books, Hills and Dondo's Contes Dramatiques, Loti's Pêcheur d'Islande, and Mérimée's Colomba, or their equivalent. Sophomores; three hours, each semester.

7, 8. Advanced French. Advanced prose composition, review of grammar. Rapid reading of Nineteenth and Twentieth Century French stories and plays in class and by individuals. Discussion of the tendencies of modern French literature and the customs and characteristics of the different sections of France as they are revealed in these works. Elective for Juniors and Seniors; three hours, each semester.

9, 10. Classical Drama. Advanced prose composition. Review of French literature from its beginning, with special attention to Seventeenth Century literature, emphasizing the works of Moliere, Corneille, and Racine. Elective for Juniors and Seniors; three hours, each semester.

14. Eighteenth Century French Drama. After a brief review of Seventeenth Century French drama, and of the literary conditions of that period, a comparison of Seventeenth and Eighteenth Century works is made. Writings of the most outstanding dramatists of this period are studied. Text-book, Brenner and Goodyear's Eighteenth Century French Plays, and library references. Elective for Juniors and Seniors; three hours, first semester.

13. The Teaching of French in the Secondary School. Intended to organize the various kinds of knowledge necessary for teaching high-school French. Deals with methods, subject-matter, text-books, and the apparatus of French teaching. Classroom work is supplemented by occasional papers based on the classroom discussions and the supplementary reading. Identical with Education 31. Elective for Juniors and Seniors; three hours, second semester.

German

Courses 1, 2, 4, and 5 are taught each year. Of the six courses, 7, 8, 9, 10, 11, and 12, the two courses best suited to the needs of those electing advanced German are taught each year.

1, 2. College Beginning German. Grammar, easy prose translation, and simple conversation. Text-books, Joynes and Meissner's Grammar and such texts as Bacon's Das Vaterland, Von Hillern's Höher als die Kirche, and Wells' Drei kleine Lustspiele. Freshmen; three hours, each semester.

4, 5. College Second-year German. Review of grammar, prose composition, and reading from modern authors. Sophomores; three hours, each semester.

7, 8. Advanced German. Rapid reading of representative works written during the last century, and study of German literary tendencies during the same period. Advanced prose composition. Elective for Juniors and Seniors; three hours, each semester.

9, 10. Goethe and Schiller. Study of several of the chief works of these authors, collateral reading of their dramas, and brief review of German literature from the Reformation to the present time. Elective for Juniors and Seniors; three hours, each semester.

11, 12. Scientific German. Selections descriptive of various sciences are read, and part of the time is given to the German of industry and commerce. Elective for Juniors and Seniors; three hours, each semester.

Spanish

1, 2. College Beginning Spanish. Grammar, composition, conversation. Text-books, De Vitis' Brief Spanish Grammar, Fuentes and François' Trip to Latin America, A Commercial Reader, and Dorado's España Pintoresca. Freshmen; three hours, each semester.

4, 5. College Second-year Spanish. Review of grammar, prose composition, themes, practice in commercial correspondence, reading of modern plays and of newspapers. Text-books, Seymour and Carnahan's Short Review Grammar, Alarcón's Novelas Cortas, and Galdos' Marianela. Sophomores; three hours, each semester.

7, 8. Advanced Spanish. Modern literature course, with a view to preparing teachers of Spanish. Rapid reading of such books as Altamirano's Navidad en las Montañas, Palacio Valdez' José, and plays by Jacinto Benavente. Prose composition and notebook work. Elective for Juniors and Seniors; three hours, each semester.

9, 10. Classical Spanish. A detailed study of Cervantes' Don Quijote, Juan Manuel's Conde Lucanor, early farces, and some plays of Calderón and Lope de Vega. Spanish literature studied through its periods of development. Elective for Juniors and Seniors; three hours, each semester.

MATHEMATICS

PROFESSOR KNAPP AND ACTING PROFESSOR WALKER

1. Solid Geometry. Offered as an elective, in order that students entering without solid geometry may be able to major in mathematics. Freshmen; two hours, first semester.

2. Plane Trigonometry. Students that present plane trigonometry for entrance take Course 4 or 9. Required of Freshmen; three hours, first semester; repeated second semester for those who take Bible during first semester.

4. Plane Analytic Geometry. Prerequisite, Mathematics 2. Either this course or Course 9 required of students that present plane trigonometry for entrance. Elective for Sophomores; three hours, second semester.

10. Plane Surveying. Use and adjustments of instruments; methods employed in practical surveying; chaining, triangulation, leveling; calculating areas and earth work, establishing grades, dividing land; railway location, laying out curves; mapping, and topographical work. Special attention given to field-work. Prerequisite, Mathematics 2. Field-work, six hours a week. Elective for Sophomores; three hours credit, second semester.

8, 28. College Algebra. Logarithms; series; permutations, combinations, and probability; determinants and the theory of equations. Elective for Sophomores; two hours, each semester.

6, 7. Differential and Integral Calculus. Differentiation of algebraic and transcendental functions, with elementary applications of the calculus, especially in maxima and minima, and in the expansion of functions, the general treatment of curve tracing, asymptotes, inflection, curvature, and singular points; radius of curvature and envelopes. Direct integration of elementary forms, including integration by decomposition of fractions; integration by substitution, by parts, and by the aid of reduction formulæ. Applications particularly in the rectification, quadrature, and cubature of curves. Prerequisite, Mathematics 4. Elective for Sophomores; three hours, each semester.

9, 29. Astronomy. A general survey; definitions; description and use of instruments; the heavenly bodies; stellar and planetary evolution. Prerequisite, Mathematics 2. Either Course 9 or Course 4 is required of students that present plane trigonometry for entrance. Elective for Juniors and Seniors; three hours, first semester; two hours, second semester.

11. Spherical Trigonometry. The development and transformation of formulæ; solution of spherical triangles with application in geodesy, navigation, and astronomy. Prerequisite, Mathematics 2. Elective for Juniors and Seniors; two hours, second semester.

12, 18. Differential Equations. Equations of the first and second orders; linear equations; solutions of equations by series; miscellaneous applications.

Prerequisites, Mathematics 6 and 7. Elective for Juniors and Seniors; two hours, each semester.

13. The History of Mathematics. Mathematical knowledge and methods of primitive races; Egyptians; the Greek schools; the Middle Ages and the Renaissance; mathematics of the seventeenth and eighteenth centuries; recent times; résumé by topics with a study of the methods of teaching elementary mathematics. Identical with Education 9. Elective for Juniors and Seniors; two hours, second semester.

14. Solid Analytic Geometry. Systems of coordinates in solid analytic geometry; loci; lines, planes, surfaces; general equations of the second degree; ruled surfaces. Prerequisite, Mathematics 4. Elective for Juniors and Seniors; two hours, first semester.

15. Theory of Equations. General properties and transformations of equations; reciprocal and binomial equations; algebraic and trigonometric solutions of cubic equations; algebraic solutions of the quartic equation; symmetric functions of roots; separation of roots; solution of numerical equations; complex numbers; determinants; discriminants. Elective for Juniors and Seniors; three hours, first semester.

16. Mechanics. A course combining analytical and graphical methods, and intended particularly for students preparing for engineering. Prerequisites, Mathematics 6 and 7, and Physics 6 and 7. Elective for Juniors and Seniors; three hours, second semester.

17. Synthetic Projective Geometry. Harmonic points, lines, and planes; point-rows and pencils of the second order; poles and polars; involution; metrical properties of conic sections. Prerequisite, Mathematics 4. Elective for Juniors and Seniors; two hours, first semester.

NATURAL SCIENCES

Biology

Miss Green, Mrs. Olin, Miss Hudson, and Laboratory Assistants

14, 15. General Biology. The object of this course is to give the student a clear conception of the fundamental principles governing living matter, particularly with relation to man. Lectures, recitations, demonstrations, and laboratory work help the student acquire the scientific method of gathering related data from every source and of bringing it to bear upon the problem studied. Prerequisite to all other courses in biology, except that students majoring in home economics take Course 14 in the first semester of their Junior year and Course 16 (Bacteriology) in the first semester of their Senior year. Text-books: Woodruff's Foundations of Biology and Baitsell's Manual. Laboratory practice, four hours a week; lecture, one hour. Freshmen; three hours credit, each semester.

1. Invertebrate Zoology. Recitations, dissection of typical forms, and field-work. Text-books, Hegner's Zoology and Pratt's Laboratory Manual. Laboratory practice, four hours a week; recitation, one hour. Elective for Sophomores; three hours credit, first semester.

2. Vertebrate Zoology. Recitations, dissection of typical forms, and field-work. Text-books, Hegner's Zoology and Pratt's Laboratory Manual. Laboratory practice, four hours a week; recitation, one hour. Elective for Sophomores; three hours credit, second semester.

3. Botany. Life History of Plants from Seed to Flower. Emphasis is laid upon the chief problems involved in the physiology, ecology, and morphology of the seed, the developing plant, and the flower. Text-book, Holman and Robbins' General Botany. Laboratory practice, four hours a week; recitation, one hour. Elective for Sophomores; three hours credit, first semester.

4. Botany. Plant Morphology. A rapid morphological survey of the four great plant groups. Text-book, Holman and Robbins' General Botany. Laboratory practice, four hours a week; recitation, one hour. Elective for Sophomores; three hours credit, second semester.

18. Spring Flora. Tennessee is especially rich in different varieties of plants. The course is intended to acquaint the student with as much of the local flora as possible. The student makes an herbarium, and learns how to use the Key of Gray's Manual. Text-book, Holman and Robbins' General Botany. Prerequisite, Biology 3 or 4. Laboratory practice and field trips, four hours a week; lecture, one hour. Elective for Juniors and Seniors; three hours credit, second semester.

9. Physiology of the Circulatory and Respiratory Systems. Especially valuable to students intending to study medicine. Text-book, Kimber and Gray's Anatomy and Physiology, supplemented by reference work and lectures. Laboratory practice, four hours a week; lecture or quiz, one hour. Elective for Juniors and Seniors; three hours credit, first semester.

19. Anatomy of the Cat. In its essential features, the body of the cat is very similar to the human body. The study of the cat, therefore, forms a valuable part of a system of pre-medical education. Text-books, Reighard and Jennings' Anatomy of the Cat and Bigelow's Dissection of the Cat. Prerequisite, Biology 2. Elective for Juniors and Seniors; three hours credit, first semester.

10. Physiology of the Digestive and Muscular Systems. Especially valuable to students of home economics, and to students preparing for a medical course. Prerequisites, Chemistry 1 and 2. Laboratory practice, four hours a week; lecture, one hour. Elective for Juniors and Seniors; three hours credit, second semester.

11. Physiology of the Brain, Cord, Eye, and Ear. Sense of taste, smell, pressure, temperature, and sight are studied. Especially valuable as a preliminary to psychology courses and medical courses. Laboratory prac-

tice, four hours a week; lecture, one hour. Elective for Juniors and Seniors; three hours credit, second semester.

12, 20. Vertebrate Embryology. Birds and Mammals. Especially valuable to students preparing for the study of medicine. Prerequisite, Biology 2. Laboratory practice, four hours a week; lecture, one hour. Elective for Juniors and Seniors; three hours credit, each semester.

16. General Bacteriology. The fundamental facts of bacteriology; special technique for studying bacteria; preparing culture media; growing and staining bacteria; studying pure and mixed cultures; examining water and milk. A basic course for special study in industrial sciences, home economics, medicine, and general scientific studies. Students majoring in home economics take this course instead of Course 15. Text-book, Buchanan's Bacteriology. Laboratory practice, four hours a week; lecture, one hour. Elective for Juniors and Seniors; three hours credit, first semester.

Chemistry

PROFESSOR HOWELL, MR. GRIFFITTS, AND LABORATORY ASSISTANTS

The courses as outlined are planned to meet the demand of those desiring to become teachers of chemistry; of those preparing to enter medical or dental colleges; of those desiring to pursue graduate studies in chemistry; and of those looking toward a career in industrial chemistry.

1, 2. General Chemistry. Principles of theoretical chemistry and the more important metallic and non-metallic elements, together with a study of processes and methods of preparation and reaction. Text-books, Holmes' Introductory College Chemistry and Holmes' Laboratory Manual of General Chemistry. Laboratory practice, four hours a week; lecture, one hour. Freshmen; three hours credit, each semester.

3. Qualitative Analysis. Lecture work consists of a study of the fundamental theories concerned in the principles of separation and identification of the common elements. Laboratory work consists of the systematic separation and identification of the common elements in unknown combinations. Text-book and laboratory manual, Stieglitz's Theory of Qualitative Analysis. Prerequisites, Chemistry 1 and 2. Laboratory practice, four hours a week; lecture or quiz, one hour. Elective for Sophomores; three hours credit, first semester.

13. Advanced Qualitative Analysis. Continuation of Course 3. Principles and theory of analysis. Systematic separation and identification of the basic and acidic radicals, together with the analysis of alloys, ores, and commercial products. Laboratory practice, four hours a week; lecture or quiz, one hour. Elective for Sophomores; three hours credit, second semester.

11, 12. Chemistry of Food and Food Analysis. A study of the chemical structure of the various types of food and their digestion and assimilation

by the body constitutes the lecture work; and the isolation, preparation, and subsequent qualitative and quantitative analysis of food samples, the laboratory work. Text-book, Sherman's Chemistry of Food and Nutrition; laboratory manual, mimeographed instructions by the instructor. Prerequisites, Chemistry 1 and 2. Laboratory practice, four hours a week; lecture, one hour. Required of Sophomores majoring in home economics; otherwise, elective for Juniors and Seniors; three hours credit, each semester.

5. Quantitative Analysis. Principles and technique of gravimetric analysis, designed to give instruction in representative analysis and the use of standard apparatus. Text-books, Popoff's Quantitative Analysis and Smith's Laboratory Manual of Quantitative Analysis. Prerequisites, Chemistry 1, 2, and 3. Laboratory practice, four hours a week; lecture, one hour. Elective for Juniors and Seniors; three hours credit, first semester.

6. Quantitative Analysis. Continuation of Course 5. Volumetric analysis, stressing industrial methods and procedure in analytic work. Prerequisite, Chemistry 5. Laboratory practice, six hours a week. Elective for Juniors and Seniors; three hours credit, second semester.

7. Organic Chemistry. The aliphatic compounds, their preparation, properties, and uses. Text-books, Williams' Introduction to Organic Chemistry and Williams and Brewster's Laboratory Manual of Organic Chemistry. Prerequisites, Chemistry 1, 2, and 3. Laboratory practice, four hours a week; lecture or quiz, one hour. Elective for Juniors and Seniors; three hours credit, first semester.

8. Organic Chemistry. Continuation of Course 7. The aromatic compounds, their preparation, properties, and uses. Prerequisite, Chemistry 7. Laboratory practice, four hours a week; lecture or quiz, one hour. Elective for Juniors and Seniors; three hours credit, second semester.

15. Physical Chemistry. An elementary course in theoretical chemistry, covering such topics as the gas law, atomic and molecular theories, kinetic theory of gases, solutions, and the phase rule. Text-book, Getman's Outlines of Theoretical Chemistry; laboratory manual, Findlay's Practical Physical Chemistry. Prerequisites, Chemistry 1, 2, 3, 7, 8, and 13, and advanced mathematics and physics; or by permission of the instructor. Laboratory practice, four hours a week; lecture, one hour. Elective for Juniors and Seniors; three hours credit, first semester.

16. Physical Chemistry. Continuation of Course 15. Osmotic pressure, thermo-dynamics, electro, thermo, and colloidal chemistry. Prerequisite, Chemistry 15. Laboratory practice, two hours a week; lectures, two hours. Elective for Juniors and Seniors; three hours credit, second semester.

17, 18. Advanced Organic Chemistry. Primarily a laboratory course, in which the more difficult syntheses are studied and worked out in the laboratory, with emphasis upon technique and yields. The theories of

organic chemistry are taken up by reading assignments and informal discussions. Prerequisites, Chemistry 3, 13, 7, and 8. Elective for Juniors and Seniors; three hours credit, each semester.

Physics

Acting Professor Walker, Professor Knapp, and Laboratory Assistants

6. Mechanics. Prerequisite, Mathematics 2. Laboratory practice, four hours a week; recitation, one hour. Sophomores; three hours credit, first semester.

7. Sound and Heat. Prerequisite, Mathematics 2. Laboratory practice, four hours a week; recitation, one hour. Sophomores; three hours credit, second semester.

8. Light. Prerequisite, Mathematics 2. Laboratory practice, four hours a week; recitation, one hour. Juniors; three hours credit, first semester.

9. Magnetism and Electricity. Prerequisite, Mathematics 2. Laboratory practice, four hours a week; recitation, one hour. Juniors; three hours credit, second semester.

PHILOSOPHY

Dean Barnes and Professor Rodgers

3. The Grounds of Theistic and Christian Belief. The principal theistic and anti-theistic arguments, and the main historical and philosophical arguments for belief in the Christian religion. Lectures and written quizzes. Text-books, Mullins' Why is Christianity True? and Fisher's Evidences of Theistic and Christian Belief. Required of Juniors or Seniors; three hours, first semester.—Professor Rodgers.

4. Ethics. The leading conceptions of moral theory are approached by the historical method. The student is led to see that moral problems are real problems, which are solved best by reflective thought that is guided by Christian ideals. The various types of ethical theory are discussed. Special emphasis is placed upon the ethics of social organizations: the state, the economic life, and the family. Lectures and written quizzes. Text-book, Drake's Problems of Conduct, supplemented by Dewey and Tufts' Ethics, and the works of Sidgwick, Green, Martineau, and Spencer. Required of Juniors or Seniors; three hours, second semester.—Dean Barnes.

PHYSICAL TRAINING

Professor Honaker, Mr. Thrower, Miss Weller, and Assistants

1, 2. Gymnasium classes adapted to the needs of the student are conducted by qualified instructors. The work is varied, and includes indoor and outdoor group sports, hikes, and the like. The classes for young men

and young women are conducted in separate gymnasiums, and under the direction of their respective physical directors. Four hours' credit in physical training is required for graduation, in addition to the one hundred and twenty-two hours of academic study. Consistent work on the football or baseball squad or on the track team is credited as fulfilling a proportionate part of the physical-training requirement. Required of Freshmen; two hours a week (one hour credit), each semester.

3, 4. Continuation of Courses 1 and 2. Required of Sophomores; two hours a week (one hour credit), each semester.

10, 11. Coaching and Teaching of Athletics. Those wishing to take the course will be given such examination as may be necessary to determine their fitness for undertaking the work. Prerequisite, Freshman physical-training requirement. First semester, football and basketball; second semester, baseball and track. Lectures and practical work, three hours a week. Sophomore, Junior, and Senior men; three hours credit, each semester.—Professor Honaker.

POLITICAL AND SOCIAL SCIENCE

Professor McMurray

Courses 10 and 11, 1 and 2, 15 and 16, and 17, are offered each year. Of the eight courses, 5 and 6, 12 and 13, 19 and 20, and 21 and 22, four are offered each year. Courses 12 and 13, and 19 and 20, were taught in 1929-1930; 5 and 6, and 21 and 22, will be offered in 1930-1931.

Government

10, 11. American Government. A course in American citizenship. The form and workings of local, state, and national government in the United States; organization and functions of political parties; questions of American foreign policy; current political questions. The latter part of the second semester is devoted to a practical study of parliamentary law. Text-books, Munro's The Government of the United States, Binkley's Problems and Exercises in American Government, and Hall and Sturgis' Parliamentary Law. Elective for Sophomores; three hours, each semester.

6. Comparative Government. A comparative study of the governmental organization of the principal countries of the world so as to enable students better to understand the fundamental problems of democracy and to develop that broad and sympathetic view of world conditions that should characterize American citizens. The essential features of the governments of the United States, France, England and her colonies, Germany, Switzerland, Austria, Hungary, Russia, and other countries, are carefully studied. Text-book, Munro's Governments of Europe. Elective for those who have had, or who are taking, Social Science 10; three hours, first semester.

5. Political Parties and Practical Politics. An introductory and analytical study of the American party system designed especially to fit young men and young women for more intelligent citizenship. The main subjects considered are, present-day national parties, party platforms, nominating methods, campaigns and elections, and the party in power—the last-named subject comprising a study of the spoils system, civil service reform, machines and bosses, practical politics in legislative bodies, and remedies for legislative evils. Text-book, Ray's Introduction to Political Parties and Practical Politics. Elective for those who have had Social Science 10; three hours, second semester.

Sociology

1, 2. Principles of Sociology. The course deals with such subjects as the following: population; evolution of social institutions; analysis of society, social maladjustment, and social progress. Emphasis is placed on the practical phases of the subject. Text-books, Bogardus' Introduction to Sociology and Dow's Society and Social Problems. Reference reading and reports, together with assigned problems for original investigation. Elective for Sophomores; two hours, each semester.

17. Social Psychology. Identical with Psychology 6.—Miss Gamble.

12. City Problems. A study of the city, with special reference to the history of municipal development, the present organization of municipal government, the problems involved, and the best methods of solving these problems. Text-books, Maxey's Outlines of Municipal Government and Maxey's Readings in Municipal Government. Elective for Juniors and Seniors; two hours, first semester.

13. Rural Problems. Designed to show the scope of rural sociology, to compare the advantages of country and city, to consider such improvements as are conducive to rural community welfare. Text-book, Gillette's Rural Sociology, with supplementary readings from other standard works. Elective for Juniors and Seniors; two hours, second semester.

21. Social Pathology. In the study of this subject the student is led into a better understanding of the nature and causes of crises in the lives of individuals and groups. The case method is largely used. Many projects are assigned and reports required. Text-book, Queen's Social Pathology. Supplementary readings from other standard texts and from current literature of the subject are required. Prerequisite or parallel, Social Science 1. Elective for Juniors and Seniors; two hours, first semester.

22. Educational Sociology. Especially for teachers or those expecting soon to become teachers. The problem method is used. Text-book, Snedden's Sociology for Teachers. Supplementary readings and reports required. Identical with Education 30. Prerequisite, Social Science 1. Elective for Juniors and Seniors; two hours, second semester.

Economics

15, 16. Economic Principles. The organization of production, value and exchange, money, banking, international trade, distribution of wealth, labor problems, problems of economic organization, and taxation are the chief questions considered. Much attention is given to practical problems and exercises illustrative of various economic principles. Text-book, Fairchild, Furness, and Buck's Elementary Economics. Elective for Juniors and Seniors; three hours, each semester.

19. Economics of Marketing and Advertising. A practical course for students who expect to enter business. It treats of the application of fundamental economic principles to the various phases of marketing and advertising. Text-book, Moriarty's Economics of Marketing and Advertising. Supplementary reading and reports required. Prerequisite or parallel, Social Science 15. Elective for Juniors and Seniors; three hours, first semester.

20. Money and Banking. A practical introductory study of the fundamentals of money and banking as a foundation for business. Text-book, Phillips' Bank Credit. Reading and reports from Phillips' Money and Banking and other works are required. Prerequisite, Social Science 15. Elective for Juniors and Seniors; three hours, second semester.

PSYCHOLOGY

DEAN BARNES, MISS GAMBLE, MISS KELLER, AND LABORATORY ASSISTANTS

17. Elementary Educational Psychology. Primarily for students of education that have had no previous training in psychology. Is not a substitute for the required Psychology 1 and 12. The whole field of psychology is briefly studied. Emphasis is placed upon instinctive activity, habit, laws of learning, intelligence, and how to study. Identical with Education 22. Elective for Sophomores; three hours, first semester.—MISS GAMBLE.

1. Elementary Psychology. Introductory course. Special emphasis on the study of the psycho-physical organism. The various psychological processes are studied with especial emphasis upon sensation, habit, instinct, attention, perception, and memory. Text-book, Gates' Psychology, with lectures and library references. Required of Juniors; three hours, first semester.—MISS KELLER.

12. Elementary Psychology. Continuation of Course 1. Review of sensation, and a study of the special senses by the use of the Auzoux Models of the brain, eye, and ear. Careful study of memory, imagination, reasoning, emotions, and volition. Comparative study of the functional, structural, and behavioristic points of view. Text-book, Woodworth's Psychology. Library assignments. Required of Juniors; three hours, second semester. —MISS KELLER.

5. Advanced Educational Psychology. Psychology applied to teaching and management in the high school and upper grammar grades; a study of the group consciousness and social instincts of adolescents, competition, rivalry, sex differences, social organization, the native equipment of human beings, and the psychology of learning, with special reference to the meaning of these facts in their application in the organization of the school. Identical with Education 8. Prerequisites, Psychology 1, 12, and Education 4. Elective for Juniors and Seniors; three hours, second semester.—DEAN BARNES.

6. Social Psychology. A study of group consciousness and social origins. Relation of the psychic life of the group to the group activities. Instruction and discipline of children by the parents and by the groups. Comparison of the mental traits of different races and social classes. Psychology of the crowd, the mores, and folkways. Elective for Juniors and Seniors; three hours, second semester.—MISS GAMBLE.

7. Experimental Psychology. The course consists of experiments in acoustics, haptics, optics, reactions, taste, and smell. Text-book, Langfeld and Allport's Laboratory Course in Psychology, supplemented by the works of Külpe, Sanford, Titchener, Judd, Whipple, and Myer. Laboratory practice, four hours a week; lecture or quiz, one hour. Elective for Juniors and Seniors; three hours credit, first semester.—DEAN BARNES AND LABORATORY ASSISTANTS.

8. Experimental Psychology. Continuation of Course 7. Special emphasis is placed upon the study of the reaction experiment by the use of the Hipp chronoscope. Laboratory practice, four hours a week; lecture or quiz, one hour. Elective for Juniors and Seniors; three hours credit, second semester.—DEAN BARNES AND LABORATORY ASSISTANTS.

14. Applied Psychology. Application of psychology to education, business, salesmanship, advertising, and public speaking. Elective for Seniors; two hours, second semester.—DEAN BARNES.

18. Advanced Psychology. A survey of the principal fields of psychology: genetic, social, abnormal, educational, and vocational; with their practical applications. Elective for Seniors; three hours, first semester.—DEAN BARNES.

DEPARTMENTS OF SPECIAL INSTRUCTION

MUSIC

It is the purpose of these courses to lay a firm technical foundation that will lead to the expression of the highest musical thought and emotion. The works of the best masters are employed through all grades, so that the pupil may grow continually in musical taste and may develop a sympathetic comprehension of all that enters into artistic performance. The study of harmony, the theory of music, and the history of music is urged. Pupils are required to read and pass examinations upon reference works, provided in the Library, as assigned by the teachers. Lectures are given during the year by the head of the department on the subject of Musical Appreciation. Compositions are played and analyzed, and an effort is made to point out their underlying thought and meaning. These lectures are open to the general public as well as to students of the College. Recitals also are given by the students of the department in the chapel auditorium.

On account of the individual needs of the pupil, it is considered inadvisable to adhere too persistently to any special set of exercises and studies, but advisable, rather, to select those that will meet the particular requirements of each pupil. A general idea of the various courses may be had from the following outlines.

Piano

Miss Hale, Miss Adkins, and Miss Batt

Elementary Course. Building up the hand. Correcting improper or faulty hand positions, and the reinforcing of the hand by means of exercises. Training in a knowledge of notes, their relationship to the keyboard, rhythm, and the like. Studies and sonatas selected from the works of Czerny, Bertini, Clementi, Handel, Mozart, and Beethoven, supplemented by easy pieces from modern composers, such as Schumann, Schytté, Reinecke, and Scharwenka.

Intermediate Course. More difficult forms of scale, including major and minor scales, scales in thirds, sixths, and tenths; broken chords and arpeggios with their inversions; dominant and diminished seventh chords in their different positions. Studies of considerable technical difficulty from the works of Czerny, Berens, and Cramer. Emphasis on the study of Bach's two-part and three-part Inventions. Classical compositions, including sonatas, from the works of Beethoven, Mozart, and Haydn. Study of the best modern compositions. By the end of the Intermediate Course the pupil must be able to play at least five compositions from memory.

Advanced Course. Studies of technical difficulty, including "Gradus ad Parnassum," Clementi, Mocheles, and Chopin; also compositions by

Beethoven, Schumann, Mendelssohn, and others, supplemented by those of the best modern composers. The pupil is required to appear several times in recital, playing from memory whatever compositions are selected. It is also necessary to cover the requirements in Harmony and History of Music, and in Normal Training. When the pupil has done the work of this course successfully, he is entitled to a diploma in Piano, and upon graduation will be assisted in securing a position by the college agency, the Committee on Recommendations, if so desired.

Voice

Correct breathing and breath control. Placing of the voice and development of the resonance. Enunciation and diction. Training of mind and ear. Concone, Sieber, Root, Marzo, and Lütgen studies used. Song interpretations and repertoire work, including the Classics, German Lieder, Opera, and Oratorio.

The requirements in Harmony, Theory of Music, and History of Music are the same for graduation in Voice as are those required in Piano. In addition, the pupil must be able to sing in at least one language (Italian, German, or French) besides his own; must be able to play moderately difficult accompaniments with facility; must sing in the vesper choir for one year; and must give a public recital.

Violin

MISS BUTCHER

Private instruction is given to each pupil. Sevcik and DeBeriot's Methods are used for beginners, followed by technical studies of Wohlfahrt, Sitt, Sevcik, Schradieck, Kayser, Mazas, Fiorillo, Rode, and Kreutzer, with solo selections. Ensemble work is made a regular exercise in the college orchestra, which meets each week, and plays for many of the public entertainments and chapel exercises.

Musical Organizations

VESPER CHOIR. Members are selected on a basis of voice, correct ear, knowledge of musical notation, punctuality, and regularity of attendance. Rehearsals are held once each week. Two sacred concerts are given during the year. Although no credit is given, the work of the choir is an enviable training for students who undertake church work.

GLEE SINGERS. Accessible to men that have a fair knowledge of the rudiments of vocal music. Voice tests are given early in the fall. The Glee Singers conduct a concert tour, and give at least one home concert each year.

GIRLS' GLEE CLUB. Requirements are the same as in the case of the Vesper Choir. Concerts are given during the year.

ORCHESTRA. Opportunity to become a member of the orchestra is given to any student having sufficient musical training.

BAND. Membership in the band is open to any student possessing a fair knowledge of band music.

EXPRESSION

This course of study is designed to meet the needs of those that desire to become teachers of reading and public speaking and to develop greater effectiveness as platform readers or public speakers. The aim is to cultivate the power to appreciate and interpret standard literature, and to secure simplicity and naturalness in the development of individual powers of expression. The individual needs of each pupil are studied, and care is taken to prevent affectation or artificiality. The methods pursued are creative, and embody practice in rendering selections from the best authors, and in outlining, preparing, and delivering orations.

A three years' course of study is offered. A diploma of graduation is granted in Expression to those who, having previously completed fifteen units of high-school work, complete the courses as outlined. Double work may be permitted in cases of unusual ability, or previous training, but the diploma of graduation is not granted to students having fewer than fifty-five semester hours' credit.

College students not desiring to take the full course in Expression may receive credit for work taken on the following basis: One year of individual weekly lessons in Expression, with their required hour of practice each day, shall, when completed, receive three semester hours' credit. Not more than six hours of such credit shall be allowed.

Expression

MRS. WEST, MRS. VEECH, AND MRS. MORTON

1. Voice, Action, and Reading. Voice culture, physiology of the vocal organs, breathing, open throat, tone projection, tone support, responsiveness of the voice, correcting defects of the voice, articulation, pronunciation, exercises for grace and poise in expression, gesture, and pantomime. Individual training and practice. Text-book, Leland Powers' Practice Book. Individual lesson, one-half hour; practice, five hours; class lesson, two hours; and gymnasium drill, two hours; each week throughout the year.

2. Bible Reading and Shakespeare. Class work in these branches throughout the year. Voice culture and physical culture as outlined for the first year's course. Individual training and practice of advanced grade. Individual lesson, one hour; practice, five hours; class lesson, one hour; and gymnasium drill, two hours; each week throughout the second year.

3. Dramatization. Voice culture and physical culture continued. Individual training and practice of advanced grade. One semester's work

in Story Telling. Stage technique and make-up. A number of plays are prepared and presented by the Maryville College Players, an organization composed of the students taking this course. Individual lesson, one hour; practice, five hours; and class lesson, one hour; each week throughout the third year.

College courses, also, including English 1, 2, 3, 5, and 6, two courses in psychology or education, two courses in Bible, and courses in other departments, totaling at least fifty-five semester hours' credit with an average of C, must be taken.

Story Telling

MRS. VEECH

Story telling is a recognized art of permanent value. The course as arranged is an integral part of the three-year course of training in Expression, and is required, for at least one semester, of all who intend to graduate in Expression. The course, however, is also open to all other students in the College. The course is intended to enable the student to choose short stories, or to adapt long stories, for telling to children from the age of three years to youth of about eighteen years, as they pass from the rythmic to the romantic age. The work is of special value as part of the equipment of community-service workers. Fundamental voice training and pantomime are given, and the effort is made to develop poise and freedom. Classroom work, one hour a week.

Voice Training and Bible Reading

MRS. WEST

Class work available to students who are preparing for the gospel ministry. Not given for college credit. Lectures and practice. One hour a week.

ART

MISS BIRD

FREE-HAND DRAWING. Class lessons in free-hand drawing are available to students of all the other departments without extra charges. These lessons are designed to lay a foundation for work on industrial and artistic lines. The student is taught to draw from still-life objects, including casts, and from nature.

FINE ARTS. Certificates of proficiency are granted to students who, after at least three years' study, have proved themselves entitled to them. First Year: structural form; light and dark masses in objects; still-life groups and landscape; simple compositions and color work; perspective and memory problems; study of pictures. Charcoal, crayola, water color, and oil. The pupil submits for exhibition four studies illustrating structural form, in black and white; four still-life groups, in black and white or in

oils; and four landscapes. Second Year: elementary design; drawing and painting from still life, landscape, and life; composition and picture study, with memory work; history of art. Exhibition: two original designs; four landscapes in color; four still-life groups; four sketches from the costumed model; and one original composition. Third Year: drawing from cast and from life; landscape and outdoor figure sketching; advanced still-life work; color theory and perspective; composition and picture study; history of art. Exhibition: four applied original designs; four landscapes; two still-life groups; and two sketches from life.

Courses in china painting may be arranged for.
